INDUSTRIAL SECURITY MANAGEMENT COURSE, POLICE CHIEFS ASSOCIATION OF SOUTHEASTERN PENNSYLVANIA, OCTOBER 14 AND 15, 1969

The Industrial Security Management Course, sponsored by the Police Chiefs Association of Southeastern Pennsylvania was an unqualified success. Despite the fact that attendance was held down by the Moratorium Day possibilities, the course was attended by 101 security management executives, representing 60 major industrial concerns, not only in the Delaware Valley area of Bucks, Delaware, Montgomery, Chester, and Philadelphia Counties, but from as far away as Williamsport and Bethlehem, Pa.

An outstanding feature of the program was the presentation by CHARLES DEBRENNAN, Chief of the FBI's Internal Security Section, who discussed "SDS Activities in Private Industry." Mr. BRENNAN spoke with authority and for two hours gave an excellent description of the activities set forth above. Mr. BRENNAN made an excellent impression with his warm personality, thorough knowledge of facts, and the ability to present them in a straight-forward, concise manner. Many of the attendees were much impressed and commented with the fact that this was the first time in many years that they have heard a government official "not beat around the bush" and give vague information regarding the bush" and give vague information regarding when the bush we commended for his outstanding pertinent facts. performance.

Another commendable discussion was held by J. SHANE CREAMER, Chief Counsel, Organized Crime Task Force, U.S. Department of Justice. Mr. CREAMER also had a two-hour lecture on the subject "Legal Aspects of Industrial Security." His delivery clearly showed his experience in this particular field. His facts were well-marshalled, his personality most gracious, and his presence and material coupled with that of Mr. BRENNAN's assured the course of instant success.

Chief BENJAMIN F. CAIRNS, JR., NA, Upper Gwynedd Township Police Department, and President of the Police Chiefs Association, opened the morning program with a welcome to the attendees in which he gave full credit to the FBI for their organization, planning and presentation of the course.

He was followed by SA JOHN W. REINHARD, Philadelphia Office, FBI, who explained NCIC and its importance to law enforcement. This was the first time that many of the industrial men had become fully aware of its ramifications and they asked numerous pertinent questions. SA REINHARD presented the material in a knowledgeable, personable manner, and did a most commendable job.

The first day's session concluded with an exhibition by CARMEN J. MATTIA, Assistant Chief of Police, U.S. Naval Base, Philadelphia, Pa., in which he showed how the Video-Tape could be utilized in routine industrial investigations, disturbances, and in training. Chief MATTIA was filling in for Chief HARRY J. EVERETT of the same organization who had been called to Hawaii in connection with training programs. Chief MATTIA was most satisfactory in his performance and the Video-tape caused intense interest among those in attendance.

On 10/15/69, the second day of the course, SA WILLIAM COLLINS OF THE U.S. Bureau of Narcotics and Dangerous Drugs, substituted for SA CARL C. CIPRIANI of the same organization. Despite the fact that he was faced on short notice with a two-hour lecture on "Illegal Drugs and Internal Security," he handled the assignment in a most capable manner. He presented over 100 slides explaining the different types of dangerous drugs as well

PH 1-678

as the different methods in which they were concealed and brought in and out of installations. This lecture contributed in no small way to the overall success of the program.

SA WALTER V. MC LAUGHLIN, Philadelphia Office, FBI, gave a short, concise presentation of the operations of "The Sex Offender and Industrial Security." He highlighted the lecture with a number of factual slides which amazed the executives who freely admitted they had never really considered that they had a responsibility in this particular field, but now realize that steps must be taken to increase and survey the situation.

In the afternoon, Lieutenant GEORGE FENCL in charge of the Civil Disobedience Unit of the Philadelphia Police Department, was unable to be present because of the Moratorium Day's activities but his place was very capable filled by Chief Inspector HARRY G. FOX, NA, Commanding the Police Community Relations Bureau of the Philadelphia Police Department. However, instead of speaking on "Civil Disorders and its effect on Industrial Security," Chief Inspector FOX spoke on "Community Relations and its Importance to Industrial Security."

Chief Inspector FOX is an experienced, personable lecturer with many years of experience, and he clearly showed his capabilities in his talk which gave the attendees a great deal to think about. He pointed out that industry must interest itself in community relations and that they cannot isolate themselves behind walls and fences. Although many of those in attendance did not agree with Chief Inspector FOX's Philadelphia Police ideology, nevertheless they were greatly impressed.

The final speaker was Field Supervisor DAVID W. BREEN, Philadelphia FBI Office, who described "Gambling and Shylocking as Industrial Problems." This was a field with which the majority of those in attendance were quite familiar. They asked numerous questions and were requested by Supervisor BREEN to cooperate and assist in Federal investigationssregarding these violations which might occur in their individual installations. Mr. BREEN is well-experienced in this particular field and presented his facts in a succinct, definite manner. He answered all questions

PH 1-678

satisfactorily, and made a most favorable impression upon his audience.

The course was concluded by Chief CAIRNS who thanked the attendees for their attention and attendance. Numerous requests were received for future seminars of this type and three programs of the course are attached herewith for the Bureau's attention.

The course was initiated, planned, and supervised by SA WALTER V. MC LAUGHLIN who is Chairman of the Educational Committee of the Police Chiefs Association. He was ably assisted by SA RALPH J. T. CARTER and SA PAUL W. NOLAN. Many fine comments were received from the executives regarding the organization of the program and the disciplined manner in which attention was given to the time factor in opening, closing, and limiting the speakers to their designated periods.

FROM

W. M. FELT

SUBJECT:

CHARLES D. BRENNAN

SECTION CHIEF, INTERNAL SECURITY SECTION

DOMESTIC INTELLIGENCE DIVISION

EOD 4/19/48 GS-16 @ \$29,202

PURPOSE: To recommend administrative action against captioned Section Chief for approving the mailing of a communication to the field at the Section level which pertained to a policy matter involving the utilization of manpower and contained an ambiguous instruction for investigation of communes. The communication should have been forwarded to higher levels for approval in accordance with Bureau rules. (Copy attached)

BACKGROUND: During the inspection of the Domestic Intelligence Division, a review of files and correspondence disclosed a communication to Boston and 15 other offices dated 3/24/70 captioned 'New Left Movement, Internal Security - Miscellaneous" and "Black Nationalist Movement - Racial Matters." The contents of the communication emphasized investigations on the Weatherman Faction of Students for a Democratic Society (SDS), black nationalists, and New Left extremist matters. The communication contained an ambiguous instruction that communes were to be located and participants identified. Further, where the communes were not specifically known to be aligned with the Weatherman group, a determination was to be made as to whether the members were violence prone and adhered to the Weatherman philosophy of violence. In addition, the communication pointed out that recipient offices were to consider establishing special squads to fully comply with Bureau instructions to intensify these investigations.

The ambiguity in the communication was whether the instruction communes and identify participants pertained to only the communes of the 1970 Weatherman Faction of SDS or all communes of many existing organizations. communication was approved for mailing by Section Chief Charles-D. Brennan on a Section level and not forwarded to higher levels for approval in accordance with existing Bureau rules. LTHEN

Section Chief Brennan explained he did not feel the communication contained a change in Bureau policy which had not previously been incorporated in numerous

informative memoranda, and the instruction to the field was to merely consider the possibility of establishing a special squad to comply with Bureau instructions (this explanation is unacceptable). Brennan also explained he did not feel the instructions were ambiguous because he had not received any questions from the field as to their implementation. Inspector Joseph A. Sizoo and Assistant Director William C. Sullivan advised Brennan was in error for not routing the communication through channels for consideration and approval.

#### **OBSERVATIONS:**

Section Chief Brennan was clearly in error for approving the communication for mailing on the Section level. The Bureau has received several requests from the field for additional manpower to implement the Bureau's instructions set out in the airtel. Inspector issued specific instructions to Assistant Director Sullivan to re-emphasize the guidelines to all Section Chiefs for the approval of communications to the field to preclude the possibility of a similar situation arising in the future. Since the inspection the Seat of Government procedures have been further tightened to preclude recurrence of such a dereliction.

#### RECOMMENDATION:

That Section Chief be censured for approving the mailing of a communication to the field which was clearly beyond the scope of his authority. If approved, to be handled by the Administrative Division. Francisco letter attacked.

Mr. Charles D. Brennen Federal Bureau of Investigation Washington, D. C.

Dear Mr. Brennan:

During the recent inspection of the Domestic Intelligence Division, it was determined that you approved a communication for mailing which should have been approved at a higher level. Your action was clearly beyond the scope of your supervisory authority. Further, the text of the communication was ambiguous.

Hereafter, you will be expected to carry out the administrative functions of your assignment in such a manner that criticism of this nature will not again be necessary.

#### MAIL REQUIRING APPROVAL OF ASSISTANT TO THE DIRECTOR

ASSISTANT DIRECTOR W. MARK FELT: Spot check review of files and correspondence handled by the Domestic Intelligence Division disclosed a number of instances where correspondence to the field pertaining to policy matters was approved on either a Section or Division basis and not furnished to the Assistant to the Director or Associate Director for approval. It was found in a number of instances the instructions to the field could be subject to misinterpretation or could materially affect the work and utilization of manpower by a number of offices.

The Manual for Bureau Supervisors, Section 21 provides that mail relating to cases of importance or unusual interest or involving a policy change should be forwarded to the Assistant to the Director for approval. Matters affecting the work and utilization of manpower in the field should similarly be routed to the Assistant to the Director for approval. The following are examples of the foregoing instances:

1. Airtel to Boston and 15 other offices dated 3/24/70 bearing the dual caption "New Left Movement, Is -Miscellaneous," and "Black Nationalist Movement - Racial Matters," contains observations regarding the emphasis being placed on the Weatherman faction of Students for a Democratic Society, black nationalists, and New Left extremist matters. Among the instructions contained in the communication were "communes are to be located and participants identified. Where communes Lare to be located and participants recommendate not specifically known to be aligned with the Weatherman prone and adhere to the Weatherman philosophy of violence." Egroup, you should determine whether the members are violence-The communication points out that to determine the plans for violence by these extremist groups in advance, informant coverage must be radically improved and that the monthly accounting of efforts in this regard as set forth in Freferenced Bureau airtel dated 3/12/70 (captioned "Students for a Democratic Society (Weatherman), IS - SDS") should not be limited to known Weatherman communes. Continuing, the airtel noted "It is recognized that recipient offices must consider establishing a consider e consider establishing a special squad to fully comply with Bureau instructions to intensify these investigations."

The foregoing airtel was checked out on a Section level with the apparent initials of C. D. Brennan, Chief, Internal Security Section.

Airtel to Boston and ten other offices dated 3/12/70 captioned "Students for a Democratic Society (Weatherman), IS - SDS," contains observations and ideas for the field to improve their informant coverage of Weatherman members and faction of the SDS. The airtel noted on page three that one office had established liaison with the manufacturers and outlets for commercially available explosives. has received information that Weatherman collectives and individuals have dynamite in their possession which undoubtedly is intended for use against police and military installations. Continuing, the airtel noted that "consideration should be given by each office to effect such liaison consistent with manpower available." Further, the airtel noted that "the Bureau currently requires the submission of two week airtels of steps being taken to effect informant coverage in Weatherman collectives as well as two week letters on each Key Activist who is a Weatherman setting forth the investigation being conducted to locate these individuals. It has been recommended that these requirements be discontinued and that one over-all letter on a monthly basis be submitted by each office involved to the Bureau and to each other office covering the following basic points:...etc. The Bureau concurs with the recommendation and recipient offices should submit this information by airtel the first of each month."

This airtel was approved by C. D. Brennan, Chief, Internal Security Section, on a Section level.

(U)

3. Airtel to Atlanta and ten other offices dated 1/14/70 captioned "Students for a Democratic Society (RYM), IS - SDS, pertained to the Revolutionary Youth Movement (RYM), a former faction of SDS and instructed "Each office in its continuing investigation of RYM should continue to keep all appropriate informants alerted to RYM activity in its area, particularly the organizing of regional offices as well as local chapters or collectives both off and on college campuses. Particular emphasis must be placed on coverage of RYM Steering Committee members to determine if they have traveled to Steering Committee meetings or are considered as local leaders in organizing RYM chapters in the area where they are residing." Continuing, "The field cannot sit back and let this organization develop without penetrating its inner core on local, regional and national levels, and all recipients are responsible for effecting informant coverage. Leads to other field offices must be promptly handled and leadership, chapter and membership identities established." (C)

This airtel was approved for the Division by C. D. Brennan for Assistant Director W. C. Sullivan.

- 4. Airtel to Albany and sixteen other offices dated 1/27/70 captioned "SDS (Weatherman), IS SDS," noted the necessity for considering every identified Weatherman member for inclusion in the Security Index. Continuing, the airtel noted "In this regard each office is to afford immediate action to the placing of an informant in each Weatherman collective. To enable the Bureau to follow this matter each office is to submit an airtel to the Bureau the first and fifteenth of each month under the above title and character showing the results undertaken by the office to penetrate each Weatherman collective in the area covered by that office." This airtel was approved on a Section level by C. W. Thompson, Number One Man, who initialed the approval for C. D. Brennan, Chief, Internal Security Section.
  - 5. Bulet to Springfield dated 4/10/70 captioned "Black Panther Party (BPP), Springfield Division, RM," contains the instruction to the Springfield Division to furnish an additional monthly airtel and under the subheading of each BPP chapter include the address of any BPP pads, houses and community centers. Also included was the instruction to list all BPP members and leaders who have been identified and an estimate of the total membership of each chapter and other alleged members the Springfield Division was attempting to identify.

This letter to the Springfield Division was approved at a Section level with the initials of G. C. Moore, Chief of the Racial Intelligence Section, by T. D. Rushing, the Section Number One Man.

Based on a review and analysis of the foregoing communications (Xerox copies attached) explanations are requested as follows: (the numbered request for explanations correspond with the numbered items above)

1. Section Chief C. D. Brennan is requested to explain why he approved an airtel directed to 16 offices instructing that communes are to be located and participants identified, at the Section level, instead of referring to the Assistant Director and forwarded to the Assistant to the Director.

147.

Mr. Brennan is also requested to define the scope of the instructions intended by this communication; specifically, was it intended that these instructions be limited to the Weatherman Faction of SDS or was it intended that the instructions pertain to any or all communes in the territory covered by the 16 offices?

If the instructions were intended to be limited to the Weatherman Faction of SDS, why was the communication sent out under the dual caption "New Left Movement; IS - Miscellaneous" and "Black Nationalist Movement - Racial Matters?"

#### SPECIAL INSTRUCTION TO ASSISTANT DIRECTOR SULLIVAN

Instant airtel is subject to misinterpretation. If the instructions are limited to the communes of the Weatherman Faction a clarifying communication should be sent to interested office. If the instructions were intended to cover all communes the matter should be summarized in an additional memorandum and submitted to the Assistant to the Director and the Associate Director for approval in view of the overall impact on the manpower in the field.

- 2. Explanations are requested from C. D. Brennan for approval of the airtel on a Section level which contained instructions for each office to give consideration to maintaining liaison with manufacturers and outlets for commercially available explosives consistent with available manpower. This airtel would appear to come within the purview of the instructions contained in the Manual for Bureau Supervisors requiring the approval of the Assistant Director to be forwarded to the Assistant to the Director for approval.
- who initialed the approval of the Division for Assistant Director W. C. Sullivan of the communication the contents of which instructed each office in its continuing investigations of RYM to keep all appropriate informants alerted to RYM activity in its area particularly the organizing of regional offices as well as local chapters and coldectives both off and on college campuses. This matter appears to be within the purview of the items covered by the Manual for Bureau Supervisors which should have received the approval of the Assistant Director for forwarding to the Assistant to the Director for approval.

- 4. Explanations are requested from C. W. Thompson, Number One Man, Internal Security Section, for the approving for C. D. Brennan of the airtel which instructed each office to afford immediate action to the placing of an informant in each Weatherman collective. Further, the airtel instructed each office to submit an airtel to the Bureau the first and fifteenth of each month showing the results by the office to penetrate each Weatherman collective in the areas covered by that office. It appears that this communication comes within the purview of the matters outlined in the Manual for Bureau Supervisors which should have received the approval of the Assistant Director of the Division prior to forwarding to the Assistant to the Director for approval.
- 5. Explanations are requested from Number One Man T. D. Rushing for approving the letter to the field which should have been forwarded through channels as it appears to require the submission of an additional monthly summary of information. It would appear obvious there must be some review exercised beyond the Section level on the request of the field to submit additional monthly summaries in order to control the amount of additional work placed on the field.

37

With respect to item number one, the Inspection Staff anticipates that a number of offices may use the instructions contained in that airtel for the basis for requesting additional personnel particularly if the instructions pertain to all communes and not those limited to the Weatherman Faction of SDS.

Comments of Inspector Sizoo and Assistant Director Sullivan requested.

Number One Man T. D. Rushing Racial Intelligence Section
Number 5

Springfield submitted a Black Panther Party monthly summary dated April 3, 1970, which did not comply with Bureau instructions regarding the submission of this summary and consisting primarily of newspaper articles. The letter to Springfield dated April 10, 1970, pointed out to that office Bureau requirements with regard to the submission of the monthly summary concerning the violence-prone Black Panther Party and requested an additional summary and provided guidelines as to content so as to have available the necessary information for an accurate evaluation and appraisal of the Black Panther Party in the Springfield Division. This is to cover only the summary which was submitted in incomplete form.

Since no change in Bureau policy was involved, I did not consider it necessary to send the letter beyond the Section level.

Section Chief C. D. Brennan Internal Security Section Number 1

 $(\mathbf{U})$ 

The referred-to communication was not believed to constitute a deviation from established policy and was intended to bring to the field's attention that all terrorist groups are not necessarily identifiable as Weatherman groups. The communication, taken in its entire context, draws attention to the implementation of the Weatherman plan to go underground and form commando-type units to engage in bombings, arson and assassinations as political weapons to bring about the revolution. The Chinese communist oriented Black Panther Party's claim to the vanguard role in the revolution and vociferous advocacy of assassination of law enforcement officers and other officials were cited. The sentence preceding that quoted above that communes are to be located and participants identified states, "Specific instructions set forth in referenced Burcau airtels are to be vigorously applied concerning investidations of New Left extremists." The instructions were clearly aimed at investigation of New Left extremists, and to insure unwarranted investigations were not conducted the instructions continued, "Where communes are not specifically known to be aligned with the Weatherman group, you should determine whether members are violence-prone and adhere to the Weatherman philosophy of violence. Submit your recommendations concerning these communes as to whether additional investigation is warranted concerning the commune and the individuals involved by appropriately captioned communication." The need for radically improved informant coverage of terrorist groups not limited to Weatherman groups is well established and basic to these investigations. Again, the field was being alerted not to limit its ambit of responsibilities to Weatherman extremists. With reference to the statement that recipient offices must consider establishing special squads to fully comply with Bureau instructions to intensify these investigations, the instruction was to consider this possibility, not to implement special squads.

As previously stated, these instructions were aimed at New Left extremists, of which the Weatherman group and philosophy are merely the best known. It must be recognized we have not nearly identified all Weatherman individuals, and their underground status is attested to by the current intensive efforts to locate 16 Weatherman fugitives. We are identifying new communes daily, which were never identified as Weatherman communes. The location of a commune in Chicago on March 30, 1970,

disclosed evidence of an abandoned Weatherman "bomb factory" (U) from which extensive undetonated explosives were removed.

The bombing of three New York buildings last November has been determined to involve members of the commune which published "The Rat Subterranean News," an underground newspaper which advocates violent revolution. They are adherents to the Weatherman philosophy of violence but not specifically identified as Weatherman individuals.

The extremist White Panther Party, operating out of a commune in the Ann Arbor, Michigan, area, was determined to have engaged in a series of bombings there during the Fall of 1968. The same observations apply to this group.

The recent bombing of three New York City buildings on 3/12/70 by "The Revolutionary Force Nine," which the Department requested investigation of along intelligence lines to determine the involvement of subversive groups, is another example of New Left terrorism not specifically identified as perpetrated by Weatherman individuals.

The over-all direction of these investigations, degree of concern by the President, and the Director's approval of the scope of these investigations is well summarized in A. Rosen to Mr. DeLoach memorandum dated 3/17/70, captioned "Discussion by President Nixon with Some Staff Members Regarding Bombings and Acts of Terrorism." The President expressed considerable concern over the number of bombings and other acts of terror taking place throughout the country and wondered if everything was being done in developing such information. The President also expressed concern over whether some of the older agencies, without naming any, did not need to update their methods for developing such information. The President stated he would not be at all surprised if some act of terror were committed during the present year against himself, the Vice President, or Cabinet members. The Director noted, "It is imperative we give this top priority both as to intensified coverage as well as dissemination, particularly to the President and Ehrlichman."

We cannot afford to take a narrow, parochial view of terrorism, limiting our investigations to known Weatherman groups or individuals. Weatherman represents the most readily identifiable label for terrorism, not the definitive scope of the problem.

I believe the instructions furnished the field clarified the field's responsibilities, and, considering the entire context of the communication, are not ambiguous. We have received no questions from recipient offices as to their implementation.

Section Chief C. D. Brennan Internal Security Section
Number 2

This communication was not believed to constitute a deviation from established policy and dealt, in its entire context, with suggestions solicited from the field as to means which might be utilized to cope with the terrorist tactics of the extremist Weatherman group.

Discovering purchases of dynamite by known Weathcoman extremists has been a vital part of these investigations. We have developed information concerning such purchases in Vermont and New Hampshire which bears directly on the explosion on March 6, 1970, at the residence of Weatherman leader Cathy Wilkerson's father in New York City.

This was merely one of several suggested investigative techniques which were offered the field as a result of the many suggestions received. To avoid any project-type concept, the instructions clearly stated, "consideration" should be given to maintaining liaison with manufacturers and outlets for explosives consistent with manpower available.

We have received no correspondence from the field indicating a misconception of the suggestions offered, including this particular one.

As no change in Bureau policy was involved, I did not consider it necessary to send the communication beyond Section level for approval.

Section Chief C. D. Brennan Internal Security Section Number 3

The referred-to communication was not believed to constitute a deviation from established policy. We have conducted a continuous intensive investigation of the Students for a Democratic Society (SDS) organization at the request of the Department. Informant penetration of any subversive group is an essential and basic element of any such investigation.

The split of SDS into factions, including the pro-Chinese communist Progressive Labor Party dominated Worker Student Alliance (WSA) faction, Weatherman faction, and Revolutionary Youth Movement II faction, was the subject of numerous memoranda or documents for high-level dissemination.

Specifically, C. D. Brennan to W. C. Sullivan memorandum dated 12/8/69 was approved forwarding instructions to all offices detailing this factionalism and altering reporting procedures to cope with it.

Atlanta, as headquarters of the RYM II faction of SDS, and other recipient offices which had RYM II activity in their divisions, were being reminded of the essential nature of informant penetration of this newly structured faction of SDS consistent with existing instructions concerning our investigations of SDS.

C. D. Brennan to W. C. Sullivan memorandum dated 1/19/70 was approved forwarding instructions to all offices structuring our reporting procedures to cope with this factionalism within SDS and included designation of Atlanta to prepare national reports on all RYM II activity.

As no change in existing Bureau policy was involved and instructions were consistent with those in effect, I did not consider it necessary to send the communication beyond the Section level for approval.

de

Number One Man C. W. Thompson. Internal Security Section Number 4

The airtel dated 1/27/70 captioned "SDS (Weatherman); IS-SDS" to Albany and sixteen other offices was approved by me in the absence of Section Chief C. D. Brennan.

Since the instructions in this airtel were consistent with existing policy with regard to investigations of this type, and the airtel contained no instructions which would require additional manpower commitments, it was my judgment that it should be approved on a Section level.

INSPECTOR JOSEPH A. SIZOO:

I have noted the explanation submitted with reference to the as having been approved within

five items the Inspector mentioned as having been approved within this Division and not submitted to Mr. DeLoach's Office.

With reference to Item One, Mr. Brennan has outlined in considerable detail the need for aggressive investigative action with reference to the activities of Weatherman groups and other violence-prone New Leftist elements. There is no question but that an offensive against these elements on the part of the Bureau from an investigative point of view is essential. This has been the subject of memoranda for the last 60 days or so and, in fact, within the last few days the Director instructed that additional pressure be brought to bear with reference to this overall investigative situation.

I believe the issue raised by the Inspector, however, is not the justification for sufficiency of the instructions, but the administrative question as to whether or not it should have been approved at a Section level. In defense of the judgment exercised by Mr. Brennan in this instance, it should be noted that the plans of Weatherman to go underground and to engage in a series of acts of bombings and other violence, as well as the fact that the Bureau of necessity would have to mount an aggressive program against them, have been the subject of several memoranda so that all Bureau officials were aware of the problem and knew this Division contemplated taking strong action to meet the needs. I am convinced that there was no effort to take this action without the knowledge of Bureau officials but, on the contrary, that other Bureau officials were knowledgeable that such action was essential.

With reference to the other three outgoing communications approved in the Internal Security Section, it is quite clear that they were airtels adding more emphasis to existing instructions and, therefore, were not matters of policy nor of such a character that the impact on the field would be such as to require that they be submitted through Mr. DeLoach's Office for approval.

As to Number Five, it is quite clear that this was simply a communication instructing the resubmission of a summary which had been inadequately prepared by the Springfield Office. Since this matter involved no policy question, I think it fell within the prerogative of the Section Chief of the Racial Intelligence Section to approve.

DOMESTIC INTELLIGENCE DIVISION INSPECTION 4/16/70
JAS:mls
5-A-10

Therefore, in evaluating this situation it is believed that there was no error with reference to the handling of the items identified as two, three, four or five. As to Item 1, I believe that Mr. Brennan has made an administrative error in the handling of this item and that in view of its general nature it should have been routed through channels for approval. This is not typical of Brennan's performance since he is meticulous about keeping all officials advised by memoranda of pertinent matters with reference to his cases, and it should be noted that the substantive aspects of this matter have been the subject of previous memoranda. Nevertheless, technically, he was in error in not having routed this letter through channels.

This matter has been discussed with Brennan and steps have been taken to see that all mail having any substantial impact on the field is routed through the Assistant Director's Office, as well as the offices of other Bureau officials having proper interest, for approval.

ADDENDUM: ASSISTANT DIRECTOR W. C. SULLIVAN, 4/17/70 WCS:mls

First, I wish to refer to Item Number Five relating to the Racial Intelligence Section. I mention it now to dismiss it because I think it is obvious that this Section was within its rights relative to the manner in which it handled the communication. It involved no change of policy and the substance was such that it could quite properly be handled at a Section level.

I now wish to refer to the remaining four items which concern Mr. C. D. Brennan and his Section. In regard to these items in question, Inspector Joseph A. Sizoo has set forth an explanation which I regard as being factual and knowledgeable. I agree that Items Two, Three and Four are not subject to question and do fall within the sphere of matters which may be approved by a Section Chief.

As to Item One, I believe Mr. Brennan erred in not checking this outgoing airtel through my office in order that it might have been routed through Mr. DeLoach's Office and Mr. Tolson's Office for consideration and approval. This is not typical of Mr. Brennan's performance. He is a conscientious, aggressive, and competent Bureau Section Chief. He keeps me carefully advised of matters which are pending in his Section, and this is the first time that an outgoing communication of this type has been checked out of his Section to the field without being routed by him to my office for approval. The aggressive manner in which he is approaching his responsibilities with reference to the activities of the New Left is commendable, and the substantive instructions which he sent out in this instance are not being questioned. Nevertheless, I believe there was an administrative error of judgment in this instance in his not having sent this particular piece of mail through channels for approval.

This matter has been discussed with Brennan and he is most regretful that in this instance he did not send this piece of mail through channels. I have taken steps to see that this will not happen again and this matter will be made the subject of discussion with all Section Chiefs to insure that no mail which should properly come through channels for approval is approved at a Section level.

Airtel to SAC, Doston RE: NEW LEFT HOVEHERT 100-446997-73

Since 9/68 there have been approximately 110 bombings and/or arsons reported to the Bureau which would appear to have radical left or black extremist notivation or connotations. In recent months these terroristic acts have increased in frequency and violence. There is substantial evidence the Weatherman activists and black extremists finance much of their activities through illegal activities. Weatherman activists are believed to be engaged in extensive thefts of check books and identification cards of college students which they use to purchase weapons and finance their activities. Black Panther Party members have extensively engaged in extortion and armed robbery to finance their activities.

The Department recently requested an intelligence-type investigation to determine whother subversive groups were involved in three New York City bombings. We are intensively pursuing correlative interests in Weatherman activists in the New York City explosion of March 6, 1970. There are indications about 25 Weatherman activists may be brought under prosecutive action in the near future and it is essential we know their whereabouts. Black extremists are believed responsible for a recent explosion in a car and subsequent bombing of a building in Maryland. The Chicago Office has obtained Unlawful Flight to Avoid Prosecution warrants against six Weatherman leaders. Weatherman activists are known to have made extensive purchases of firearms and explosives.

There is every reason to believe these terroristic acts will accelerate in frequency and violence unless aggressive investigation is undertaken to bring about successful prosecution, local or Federal, of the guilty parties. Indications of violations of local laws on the part of these extremists should be vigorously pursued in cooperation with local authorities to enable prosecutive action to be taken where possible.

Specific instructions set forth in referenced Bureau airtels are to be vigorously applied concerning investigations of New Left extremists. Communes are to be located and participants identified. Where communes are not specifically known to be aligned with the Weatherman group, you should determine whether the members are violence-prone and adhere to the Weatherman philosophy of violence. Submit your recommendation concerning these communes as to whether additional investigation is warranted concerning the commune and the individuals involved by appropriately captioned communication.

Airtel to SAC, Eoston RE: NEW LEFT KOVEMENT 100-446997-73

## COMPREHIAL

It is obvious that to determine the plans for violence by these extremists in advance, to allow preventative steps to be taken, informant coverage must be radically improved. Your monthly accounting for your efforts in this regard, as set forth in referenced Bureau airtel dated 3/12/70 should not be limited to known Weatherman communes.

It is recognized that recipient offices must consider establishing a special squad to fully comply with Bureau instructions to intensify these investigations. New York and Chicago have advised this action has been taken.

We are obviously into a very key phase of these investigations. If prosecution is not forthcoming against these terrorists, their activities will continue to accelerate with devastating and perhaps tragic consequences. You are expected to intensify these investigations, give them close personal supervision; and make every effort to insure prosecutive action is brought to bear against these terrorists wherever possible.

Agent personnel assigned to these investigations should be reminded of their prosecutive potential and they insure reporting of investigations is done in compliance with Bureau rules governing such matters, where appropriate. Mere absense of a substantive title does not eliminate the required use of interview report form (FD 302), for example.

Mr. Brennan is Chief of the Internal

Security Section, Domestic Intelligence Division, which position he has held with distinction since 12/5/66. particular Section continues to have the complete responsibility for the investigation of the Communist Party, communist front groups, as well as splinter groups (Socialist Workers Party, Young Socialist Alliance, World Workers Party, Progressive Labor Party, American Workers Communist Party, Proletarian Party, et cetera). This work has increased considerably in both volume and impact especially in the field of the militant New Left. The current Administration has expressed grave concern in this area and desires to be kept abreast of past happenings as well as those anticipated. This calls for alertness, aggressiveness, initiative, knowledge, imagination, incisive thinking, industry, perception, courage and outstanding investigative ability to enable planning, informant development, direction of men and complicated operation and a down-to-earth approach to the daily problems. Mr. Brennan has displayed all of these attributes and they have helped to bring about original and effective programs and techniques. He has brought outstanding leadership and enthusiasm to his work and his example has inspired confidence to personnel under his supervision. He has the responsibility for the supervision of the area of greatest national significance facing the Bureau today and he has provided the talented leadership to devise and implement plans and procedures to meet the needs of these critical and rapidly changing times. Mr. Brennan appears frequently throughout the country on behalf of the Bureau as a speaker on specialized subjects. He makes a fine impression, is an excellent speaker and represents the Bureau exceedingly well. He has handled many of the most difficult and challenging speaking assignments. Dear Mr. Hoover:

On behalf of the Educational Research Council, I want to express our appreciation for the very effective job done by Mr. Charles D. Brennan, Special Agent of the Domestic Intelligence Division, on December 6, 1969.

Mr. Brennan also met on Friday afternoon the day before with superintendents of our participating schools and did a very effective job of giving them a summary picture of problems related to internal security and to organizations which can have an impact upon high school students.

In his lecture on Saturday morning he made a very clear and a very effective presentation which was thoroughly enjoyed by the 350 outstanding teachers who had been selected as Jennings Scholars. He was objective in his approach. He gave evidence of complete mastery of the facts and related information. His presentation was very effective and his answers to the questions raised by members of the audience were direct and effective.

We are most appreciative of the fact that he was able to take time from his heavy responsibilities and busy schedule to be a very effective Jennings Scholar lecturer.

Mr. Brennan's analysis of the movements within the United States that have coalesced into the concentrated anti-war movement of today was most informative and thought-provoking. The audience particularly enjoyed the eloquent and incisive description of these movements, and the interest he aroused was sustained by the frankness of his replies during the question period. and techniques. He has brought unusual leadership and enthusiasm to his work and his example has inspired confidence in others engaged in similar pursuits. Mr. Brennan has the responsibility for supervision in an area of greatestanational significance and he has been able to provide the talented leadership needed to devise and implement plans and procedures that will meet the needs of these critical and rapidly changing times. Mr. Brennan during the rating period, as in the past, has appeared frequently throughout the country on behalf of the Bureau as a speaker on specialized subjects. Many letters commending his presentations have been received. There is no question but that he represents the Bureau exceedingly well in this respect. In addition to his work as Section Chief. he relieves on the desk of the Number One Man during the latter's absence. His performance in this regard has been far above average. Mr. Brennan is considered an outstanding prospect for additional development in an administrative and executive capacity within the Bureau.

Mr. J. Edgar Hoover, Director Federal Bureau of Investigation Washington, D. C.

Dear Mr. Hoover:

I have received your letter, dated April 24 advising me I approved a communication for mailing which was beyond the scope of my authority and was ambiguous.

I regret that it was necessary for you to call this to my attention and assure you I will exercise greater caution along this line in the future.

My action was attributable to my concern about the growing wave of violence and terrorism emanating from the activities of white and black militant revolutionaries, and I felt strongly that investigations within the scope of our responsibilities should be vigorously pursued so that no criticism could be leveled at the Bureau.

I am well aware of the tremendous pressures which have been exerted on you recently by individuals in the Department of Justice and elsewhere in connection with the growing violence and rash of bombings which have aroused nationwide concern.

It is obvious that undue and unwarranted efforts are being made to unload the burdens of responsibility on you and the Bureau without due consideration of the disastrous effects on us and our operations.

I feel these individuals must be made aware that already we are stretched beyond the limits of reasonable operational manpower needs. Furthermore, they must be made aware that their efforts to arbitrarily impose additional burdens on us are totally unrealistic and impractical. must continue to stand firm on the position that this Bureau operates only through proper authority emanating from properlegislation.

In addition, they should be made aware, through the presentation of clear, hard figures of what is involved in the way of manpower needs and operational costs.

efforts recently have been directed at obtaining this type of information as ammunition for you in anticipation of additional demands that we may expect to be levied on us.

I want you to know that I am with you all the way. After twenty three years in the Bureau, I am more fully cognizant than ever of what you have done singlehandedly in the way of raising law enforcement to that of a highly respected career profession. I am equally aware of the fact that through your efforts and under your specific direction, the FBI stands foremost as the epitome of perfection in that profession.

For these reasons, I am exceedingly proud that I have the privilege of being a career employee of the FBI. I have never worked for any other organization. The Bureau has been my lifeblood. I love it and what it stands for, and I am dedicated to protecting it and to maintaining its good name.

If, through any fault of mine, I have caused you concern, I truly regret it. I hasten to assure you of my continued loyalty, my complete support, and my unswerving determination to serve the interests of our country and those of the Bureau.

Sincerely yours,

Mr. Charles D. Brennan Federal Bureau of Investigation Washington, D. C.

Dear Mr. Brennan:

I have your letter of April 27, 1970, expressing your regret for the necessity of the recent administrative action taken against you for exceeding the scope of your supervisory authority in approving a communication for mailing which should have been approved at a higher level.

I certainly appreciate your frank apology and expressions of continued loyalty to me and to the Bureau. Your statement that your action was attributable to your concern about the growing wave of violence and terrorism is appreciated as I too share your concern for the threats to our country this problem poses. There are, however, other important areas of our operations creating burdensome demands upon our available manpower and it is for this reason that decisions as to priorities and the resultant assignment of personnel must be made at the highest level after proper review through appropriate channels.

Dear Mr. Hoover:

I received your letter of June 15, 1970, ac advising that you have designated me Assistant Director of the Domestic Intelligence Division effective August 1, 1970, and promoting me to grade GS-17.

I fully recognize the importance of your decision to move me into such a vital position and want to assure you of my determination to do the very best I can to justify your confidence in me.

In addition, I want to thank you for promoting It again brings home to me the outstanding job you have done of making law enforcement a highly respected and well-paying career profession.

Finally, I would like to add that I was happy to have had the opportunity to tell you in person how much I appreciated your thoughtfulness in promptly expressing as you did your sympathy following my Mother's unexpected passing. It meant a great deal, not only to me but also to my family, friends, and associates at home who marveled that a man with your great problems and burdens would personally take time from a busy schedule for such a thoughtful gesture. They all expressed the thought that you are indeed a remarkable person and the Bureau is a fine organization to look after its ow as it does. PEC-141 67- 4

Again, my sincere thankschfor your manyo-kind-I agree with you wholeheartedly that the single most element to look for in a man is loyalty and you have mine completely.

#### MEMORANDUM FOR MR. TOLSON

On June 15, 1970, I saw Special Agent Charles D. Brennan, Chief of the Internal Security Section of the Domestic Intelligence Division. I told Mr. Brennan that I had carefully reviewed his work and record since he has been in the Bureau since 1948 and that, likewise, you had done the same and that, further, I had talked with Assistant Director Sullivan relative to his work and all of us were in accord with considering him to be the outstanding Section Chief of the Domestic Intelligence Division and, for this reason, I was naming him as Assistant Director in charge of the Domestic Intelligence Division in view of the elevation of Mr. Sullivan to Assistant to the Director as the Number Three Man in the Bureau.

I discussed generally with Mr. Brennan the need for a tight, firm but fair administration of the Domestic Intelligence Division. I stated that as he well knew, it handled many of the most sensitive and important matters for which the Bureau was responsible, and, therefore, we must have absolutely dedicated loyal, and efficient personnel at all levels in the Domestic Intelligence Division and it was his duty and responsibility to see that this was maintained.

I told Mr. Brennan that in view of the status of our appropriations, I had found it necessary to instruct Assistant Director Felt to make intensive surveys both in the field and at the Seat of Government to either eliminate or postpone certain work of the Bureau in view of the fact that we did not have the funds with which to carry these projects on nor to add additional personnel before July 1, 1971. I stated that I had emphasized that the line of demarcation was between what is essential and what is desirable. I said it was really like the personal income which an individual has; that there are many things that may be desirable but we cannot purchase, and that the Bureau is in the same position as there are many projects no doubt quite desirable but must be either eliminated or postposed so that we can give top priority to our absolutely assential projects, such as organized crime, civil rights, espionage, violent and dissident disturbances on campus, bombings, and threats of assassination

ossential projects, such as organized crime, civil rights, espionage, violent pelocic and dissident disturbances on campus, bombings, and threats of assassination and kidnaping of our prominent officials of Government. 67-2000 Mark Callahan Contrad Contr

PERSONAL

Mr. John Edgar Hoover Director Federal Bureau of Investigation Washington, D. C.

As you know over the weekend my personal physician decided it would be the wisest course to send me to the hospital for several days of observation when I developed symptoms which indicated a possible heart problem. Fortunately, the tests disclosed that it was merely a digestive problem. As a matter of fact, my doctor greatly deflated my ego when yesterday he told me that I could go home and remarked that as near as he could discern I was "full of hot air!"

Seriously, I want to thank you for your prompt telegram advising me to forget the problems at work and to take care of my health. I also want to express my gratitude to you for your arranging to let me take a few rhours away from my desk tomorrow to avail myself of the complete medical facilities at Bethesda Naval Hospital as a double check to insure that my health is satisfactory.

I want to be absolutely certain that I am in tip top physical condition so that I can completely fulfill my responsibilities, and it is reassuring to have you express equal concern as well as ready assistance at a time when it appeared I might have a health problem.

Again, many thanks,

Sincerely yours,

Charles D. Brennan ...

Dear Mr. Hoover:

I have long admired the color portrait of you which Mr. Sullivan has had in his office. It is a most impressive picture, and I believe that its presence in the Assistant Director's office has engendered a strong Bureau feeling for the personnel of the Division. Also, I know personally that outside visitors have constantly commented upon it.

As Mr. Sullivan will, of course, take this with him when he assumes his new duties later in the month, I trust I am not being too forward in asking if you would kindly autograph a copy of this portrait to me for the office. It would indeed mean a great deal to me personally and will continue to be a focal point of the Division's Front Office.

Respectfully,

Charles D. Brennan

Mr. Brennan called me late yesterday afternoon to advise that earlier in the day he had suffered unusual and rather sharp chest pains and upon going to the doctor was advised, when first examined, that he might have suffered or might be suffering a mild heart attack. A rerun of the electrocardiogram after a few minutes rest, indicated the heart action had about returned to normal. However, in this connection, the doctor felt it was desirable for him to enter the hospital for a few days for observation in order that the situation could be followed closely. entered Circle Terrace Hospital in accordance with the doctor's instructions. Mrs. Brennan advised me later he seemed to be doing very well and that she was under the impression that he might be released from the hospital next Monday.

#### ACTION:

A suggested telegram to Mr. Brennan is attached. Copies of prior EKG tracings have been made available to Mr. Brennan's Enclosure doctor.

PHYSICAL CONDITION

In accordance with the Director's instructions, Mr. Brenian was given a full physical examination 7-8-70 by Doctor A. J. Nicolette, Medical Examiner, U. S. Naval Hospital. Doctor Nicolette advised he completely agrees with Brennan's personal physician that there is no evidence Brennan had a heart attack or suffered any heart damage, and attributed Brennan's chest pain experienced over the past weekend to a digestive upset. Pending results of laboratory tests, Doctor Nicolette said following the examination he sees nothing wrong with Brennan and considers him a good physical specimen and will certify that he is fit for full duty. He said he was pleased with Brennan's blood pressure and pulse rate. Brennan's weight was within a desirable limits.

Brennan had suffered chest pains and his Doctor had him enter a hospital 7-4-70 and released Brennan 7-6-70 advising Brennan would be fit to return to duty 7-7-70. If the results of the laboratory tests when completed reveal anything abnormal you will be advised.

(BRENNAN SUBJECT: DOMESTIC INTELLIGENCE DIVISION HEALTH MATTER Reference is made to my memorandum to you of the above-captioned matter. This memorandum indicated that Mr. Brennan had been hospitalized in order to account for sever chest pains. I have been in contact with Mrs. Brennan this weekend and she has advised that Mr. Brennan is doing fine. The doctor has definitely ruled out the possibility of a heart attack and stated he felt the situation was caused by an accumulation of gas in the abdomen, which can cause sharp pain and temporary irregular heart action. His electrocardiograms continued to be normal as of last evening, but it is contemplated that he will remain in the hospital for additional observation and tests for a few more days. SUBJECT:

EMERGENCY ANNUAL LEAVE

DATE: July 7, 1970

Holmes .

I am scheduled to make an address before the International Association of Insurance Council at White Sulphur Springs, West Virginia, on July 10, a speaking commitment which the Director has approved and which I can readily handle.

As you know, my Mother passed away unexpectedly last month and died intestate. This has produced some problems of a legal nature which I have been attempting to iron out by telephone with the attorneys handling her estate. It would be desirable if I could take emergency leave from July 13 through 16 in order to personally handle these matters and have them out of the way. In order to do so, I would travel during that period to my parents' residence in Atlantic City, New Jersey.

The Director has designated me to address the American Legion Conference of the Department of New York at Buffalo, New York, on Saturday, July 18. If my request for emergency leave from July 13-16 is approved to permit me to handle these legal matters, I would then proceed from Atlantic City to Buffalo on July 17 for the purpose of handling this speaking commitment and thereafter would return to Washington on July 19 to resume my duties here.

It is to be noted that at no time would I be any more than several hours away should an emergency situation arise and it should also be noted that Assistant to the Director Sullivan who is currently on annual leave is scheduled to be in his own office from July 13 on. Additionally, both Inspectors J. A. Sizoo and D. E. Moore will be here.

**REC-139** 

#### RECOMMENDATION:

For the Director's approval of my Srequest for four-days emergency leave as set forth above and the Director's that I fit it in consistent with my other responsibil speaking commitments. speaking commitments.

Mr. Charles D. Brennan Federal Bureau of Investigation Washington, D. C.

Dear Mr. Brennan:

It has come to my attention that a recent press release concerning Bureau accomplishments for Fiscal Year 1970, was approved by you and was subsequently found to contain language susceptible of misinterpretation. It was your responsibility to insure that this release was correct in every respect and you were remiss in this instance.

In the future, you will be expected to handle your responsibilities with more alertness and care so that criticism of this nature may be avoided.

Brennan SUBJECT: CONCERNING FALL ACTIVITY BEING PLANNED BY STUDENT GROUPS AS REPORTED IN FISCALO 15. YEAR-END PRESS RELEASE Reference memorandum 7-21-70 from Mr. M. A. Jones to Bishop captioned as above. There follows additional information concerning this matter which shows that student plans to engage in political activities this Fall has been widely

reported in the news media.

"Life" magazine issue of 6-5-70 carried an article entitled "A Student Campaign to Get Peace Started." This article reported the founding in May, 1970, at Princeton University of a Movement for a New Congress; pointed out that the group already had chapters on more than 300 campuses; and noted that the Movement had requested colleges and universities to let students have two weeks off just before the November elections. article reported that students connected with the group were working strenuously on behalf of Lew Kaden, who was campaigning on a strong antiwar platform in the Democratic primary for New Jersey's 15th District. REC-146 67- 428 100 920

The 6-16-70 issue of "Look" magazine carried an article on student dissidence which reported that students from otwentynine colleges and universities had joined with Princeton students to plan strategy for electing antiwar candidates to Congress this Fall. According to the article, the Movement for a New Congress would have its national headquarters at Princeton and set up at least eight regional centers on campuses throughout the country,

"Time" magazine 5-25-70 carried an article captioned "The New Student Crusade: Working in the System." This article reported on the Movement for a New Congress started at Princeton and identified four antiwar Congressional candidates chosen for support by the organization. The article noted that another group, the National Petition Committee, based at the University of Rochester, was seeking 20 million signatures on petitions against the Vietnam war in an effort to exert pressure on the existing Congress. Another student political-action group described was the so-called Continuing Presence in Washington which reportedly had established a research and information service

in the Nation's capital. The article reported on various other student and/or faculty efforts to organize political pressure on behalf of the antiwar drive. It noted that Princeton University had decided to recess classes for two weeks before the November elections so that students could work in congressional campaigns and that dozens of other colleges were devising similar arrangements.

A typical propaganda release issued by the National Strike Information Center, a recently organized student antiwar group, attacks the Nixon Administration as follows: "For the first time a major breach has been made in the repressive wall of Nixon's southern strategy. For the first time this sinister administration has been forced on the defensive.... The calculated attempt of this administration to destroy civil liberties in this country is so obvious that it hardly needs belaboring.... The real historical importance of the student strike to date has been the fact that it has begun to smash through Nixon's repressive strategy and has begun to reverse the ominous drift toward the totalitarization of American Society." This release also noted that among various activities being promoted by the group was electoral campaigns.

It is clear from the foregoing that the statement in our year-end press release is fully justified: namely that student committees have been formed to plan activity for the coming Fall; that they will encourage support of candidates who are opposed to the war in Southeast Asia and to the Nixon Administration policies; and that they are demanding that schools be closed so that students will be free to take part in this activity.

Memo Sullivan to Tolson
RE: CONCERNING FALL ACTIVITY
BEING PLANNED BY STUDENT
GROUPS, AS REPORTED IN FISCAL
YEAR-END PRESS RELEASE

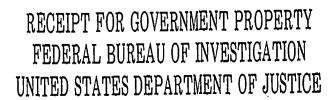

ADDENDUM (7/22/70), WCS/csh:

While this memorandum is factually correct, and while the facts to sustain the statement in the press release are accurate, nevertheless it is believed we could have conveyed the same message without reference to the administration and thus avoid any unjust implication of partisanship.

We know that all members of the New Left will scrutinize any statement made by the Director to see if they can distort, turn, or twist it to serve their own nefarious purposes. All divisions preparing this kind of material are being instructed to scrutinize with extreme care the precise wording of any proposed public statements of the Director in the future, in order to reduce to a minimum these irradional and invalid criticisms.

We made an orror hereing 1/22 "Was certainly did It was renfortunate wording."

Re: Press Release, FBI Accomplishments

#### OBSERVATIONS:

All persons involved regret the inclusion of unfortunate language susceptible of interpretation of political partisanship. It is an inexcusable error and all Officials and Supervisors identified in this memorandum share responsibility.

#### RECOMMENDATIONS:

(1) That the 13 Officials and Supervisors identified above (with the exception of DeLoach, who is retired) as preparing or approving the release be censured for the inclusion of unfortunate language in the release subject to misinterpretation as political partisanship.

(2) This matter will also be considered in connection with the Crime Records Division inspection summary.

Dear Mr. Brennan:

You were given instructions to prepare an important communication concerning bombing matters for transmittal to a high ranking member of the Presidential staff. Although I made it perfectly clear that this letter was to be in my office by the afternoon of October 12, 1970, my orders were completely ignored as it was not delivered until the following morning. I consider this a serious dereliction on your part since it was your responsibility to insure that my instructions were followed.

The Director pointed out that he wanted it clearly understood, when he issued instructions to have this material out yesterday afternoon, he expected such would be done and he did not want any deviation from such instructions. additional information was to be furnished, it could have been furnished in a supplemental memorandum; however, the memorandum, as instructed by the Director, should have been sent out yesterday afternoon. In accordance with established procedures I submitted a memorandum indicating my plans for 1971 concerning annual leave. In that regard, I wanted to drop you a note to obtain your views so that I may be guided by your feelings and desires because I have in mind taking a portion of my leave in conjunction with a speaking commitment. The commitment is the one you designated me to handle at the National District Attorneys Association Mid-Winter Conference in Honolulu on March 15, 1971.

First, I would like to say that I was both honored and privileged on being selected by you to handle this commitment. It is an honor because it is a very important group and I am proud that you have confidence in my ability to handle such an important commitment. I am privileged because it is indeed a rare opportunity.

I would like to take a week of annual leave in conjunction with this commitment to see the islands. I would only do so, however, if it met with your approval and with the understanding that my Division duties and the reponsibilities of my office would not be unduly affected by my absence. If in any way you may feel that it would be imprudent and improvident of me to take leave at that time, I naturally would be guided by your judgment in the matter. Therefore, I felt that the best thing for me to do was to consult you about it prior to making any definite plans and before doing so I will wait to hear REC-133 from you on the matter.

DG 2 Para 2,3,4

After reviewing the results of the recent inspection of the Domestic Intelligence Division, I have approved the following ratings for your operations: Specific Division Operations - Fair; Administrative Operations and Personnel Matters - Very Good; Physical Condition and Maintenance and Contacts - Excellent.

The space occupied by your Division was found to be efficiently organized and well maintained. The minor delinquencies brought to your attention should be promptly corrected. No space security problems were noted.

I want you to continue to personally supervise the East Coast Conspiracy case, and I will not consider this investigation a success until those under indictment have been successfully prosecuted. The Government and the public must be protected from dangerous elements such as this.

Careful review and analysis of your handling of racial matters indicate significant accomplishments have been made. Important increases in the quality and quantity of our informant coverage are most favorable, and highly effective arrests have been made of a large number of dangerous extremists. You should follow the Inspector's instructions carefully to further develop our member informant coverage and penetration of these groups. Careful investigative attention must be afforded the relatively new revolutionary Congress of African Peoples since this organization appears potentially more destructive than some other prominent black extremist elements.

#### Mr. Charles D. Brennan

Your accomplishments in New Left movement investigations have also been significant, as evidenced by the fact that prosecutive action is now pending against forty of seventy-five key activist subjects. You must continue, however, to penetrate the terrorist underground in order to locate and apprehend the extremist fugitives. Implement the Inspector's suggestion regarding tighter control of your informant program. I am convinced that we must have knowledgeable member informants in every militant group and organization before we can fully discharge our responsibilities.

which are now being conducted as a result of the lifting of the moratorium on such matters. Continue to maintain high-level coverage of the Communist Party, USA, since there is ample evidence this organization continues to nurture and feed upon political and sociological ills and will take advantage of every opportunity, such as the Angela Davis matter, to further its own sinister aims.

While you have some accomplishments in the espionage field since the last inspection. I am not satisfied that this work is being given the aggressive and imaginative supervision and direction necessary to produce hard results. There are over three hundred known or suspected intelligence agents from Soviet and satellite countries in the United States. yet in terms of measurable results there appears to be a lull in the espionage field. I feel from an analysis of these cases that your inability to develop a higher volume of important intelligence is attributable to the lack of coverage through defectors-in-place. The unfavorable trends detected in the review of esplonage investigations, indicating a lack of aggressiveness in affording these matters hard-hitting direction, must be corrected at once. These investigations are among the most important in our operation and should be reevaluated immediately. Those officials with the greatest potential for defection should be placed in line for more intensive handling with step-by-step direction from the Seat of Government.

The People's Republic of China has been officially recognized by the Canadian Government and is opening an Embassy in Ottawa. In addition to this there is a possibility that Communist China will be admitted to the United Nations later this year, and preparations must be made now for the intensified intelligence efforts that country will direct against the United States. Follow the Inspector's instructions

#### Mr. Charles D. Brennan

in this regard and implement the necessary programs to handle these eventualities. Also continue your aggressive handling of Cuban intel-WEDENTAL ligence matters and explore every possibility of prosecuting Castro oriented Venceremos Brigade subjects.

Continue to pay careful attention to imbalances in work load throughout the Division and take necessary action to correct these situations, as you did recently in your reorganization.

Your clerical force is operating effectively and I was pleased to learn that your stenographic production has improved since the last inspection.

The highly favorable results being achieved through your conefforts in this area of operation. You and your staff must continue to maintain such contacts in varied fields who are in positions to furnish valuable information and services to the Bureau.

Carefully review the inspection findings with your supervisory staff. The Inspector's suggestions should be implemented promptly. Advise within thirty days of the corrective action taken.

Sincerely yours.

Director .

Dear Mr. Hoover:

I am chairman of the committee which has been formed to plan for and organize the 22nd Annual FBI Mass and Communion Breakfast. The committee is composed of representatives of each Division here at the Seat of Government along with representatives of our Alexandria and Washington Field Offices respectively. In the meetings to date the committee has decided to follow the precedent established of having the Mass and Communion Breakfast in the fall. The committee members also unanimously agreed that we should attempt to follow the pattern established of having the mass at St. Matthew's Church followed by the breakfast at the Mayflower Hotel because this has proven to be a most satisfactory arrangement.

We are now at the stage of considering possible speakers for the breakfast. As you well know, we have been honored in the past as having such luminaries as Coach Vincent Lombardi and Efrem Zimbalist. This has set the tone for the committee to think in terms of equally prominent personalities to invite and in this regard suggestions have been made that we might consider Vice President Agnew, comedian Bob Hope and Chief Justice Warren Burger as possibilities. I mention this as indicative of the level of thinking of the committee representatives. REC-146 67-428 100-2

I will come to the main point of my notes committee unanimously agreed that first and coremost the one person we would most like to have as our guest speaker is you. It gives me great pleasure as chairman to have

Copy made for Tele. Rm. 3/3/71 han

ack 3/8/11

the privilege of extending this invitation to you to be the guest speaker at the 22nd FBI Communion Breakfast, and on behalf of all the members of the committee, I pray that you will honor us with your acceptance and presence.

We have already made exploratory overtures concerning the availability of St. Matthew's Church and the Mayflower accommodations, and we find that any one of three dates would be suitable to hold the affair. These are September 19, September 26, or October 3, 1971, and I sincerely hope that your schedule and other commitments are such that it will be possible for you to accept.

I would like to add a thought of my own which I feel is warranted in connection with the committee's unanimous selection of you as a person they would most like to have as their guest speaker. The committee, of course, is composed of Catholics. As I mentioned, it includes representation of all the Divisions here at the Seat of Government as well as two of our Field Offices. I think it significantly shows the great respect which Catholics, both inside and outside the Bureau, have for you as a man of principle dedicated to justice and to the law. It is particularly significant coming as it does at a time when some critics and fools have attempted to use the Berrigan case in support of their wild and unfounded allegations that you and the FBI are Anti-Catholic. As a result it gives me a very special pleasure to be able to convey to you not only our invitation but also this expression of our great respect for you, and I do hope you will be able to honor us with your acceptance.

Sincerely yours,

Charles D. Brennan

Dear Brennan:

While I am greatly honored by the invitation in your letter of March 3rd to address the 22nd Annual FBI Mass and Communion Breakfast to be held this fall, regrettably, it will not be possible for me to do so. The uncertain nature of the many demands upon my time will not permit me to make plans so far in the future and it would certainly not be fair to you or your guests to indicate a tentative acceptance at this time and then not be able to appear due to some unforeseen event. I do very much appreciate your thinking of me and am sorry I cannot accept this invitation.

SUBJECT:	ATTACK ON THE DIRECTOR BY SENATOR GEORGE McGOVERN
	The recent vicious and unwarranted attack on the Director by Senator George McGovern has greatly disturbed me. I feel that while the Director's record of achievements speaks for itself and needs no defense, Senator McGovern should be made aware of the feelings of officials of the Bureau regarding this matter.
	I feel very strongly that McGovern should be set straight about Mr. Hoover's record and further that his slanderous attack also represents a slur on my integrity and the integrity and dedication of all loyal employees of the FBI.
	I realize, however, there are political ramifications and consequences of an Assistant Director writing a letter of protest to a United States Senator, therefore, do not want to risk any embarrassment to the Director or the Bureau by writing anything to McGovern without first clearing with the Director.
	Attached is a letter to Senator McGovern over my signature and if the Director will consent I want to mail it to McGovern.  REC-145  REC-145

Dear Mr. Hoover:

I understand that your testimony before the House Subcommittee on Appropriations yesterday was enthusiastically received. Once again those members of Congress who are truly concerned about the state of the Nation have recognized through your comprehensive testimony how much the country depends on the FBI.

I want you to know that we in the Domestic Intelligence Division appreciate the manner in which you emphasized the Bureau's contributions to the internal security of the country. Your presentation was a tribute to the efforts of all Agents and employees of this Division and I know these sentiments are shared by those Agents engaged in this work in the field.

As a result of your appearance before Congress, the public will once again be assured that its continued confidence and support of your direction of the FBI has not been misplaced.

Please accept my personal congratulations.

Dear Mr. Hoover:

On behalf of the Internal Security Division of the Department of Justice and, in particular, Departmental Attorney Guy J. Goodwin, I wish to advise the Federal Bureau of Investigation of our appreciation for cooperation extended ·by the Bureau which led to the recent indictment at Harrisburg, Pennsylvania, of Philip Berrigan and others.

Mr. Goodwin has advised me of the great material assistance rendered to him by the following individuals: Assistant Director, C. D. Brennan, Section Chief, Robert L. Shackelford, Special Agents, Fred B. Griffith, John W. O'Rourke, James F. McGuire, George H. Menzel and William B. Anderson.

During the hearings at Harrisburg, Mr. Goodwin relied considerably on the knowledge of Special Agent, Delmar H. Mayfield of Philadelphia who handled the Bureau informant who testified in this case. His assistance and hard work was of great value and also appreciated by the Department. FX-14 REC-35 1 61. 7/60495

In addition to the foregoing individuals, there have been many others who have made particularly valuable contributions in this case. Please convey our deep appreciation, through the Special Agents in Charge, to those men assigned to the following offices: Philadelphia, New York, Baltimore, and the Washington Field Office.

Honorable George S. McGovern United States Senate Washington, D. C. 20510

Dear Senator:

I cannot let your unwarranted and slanderous attack on the Director of the FBI go unchallenged. J. Edgar Hoover's record and material contribution to the country and to law enforcement in particular require no defense. His tireless efforts to raise the standards of law enforcement to a professional level and his vigilance against foreign and domestic subversion are well known to the American people.

It is not my intent, therefore, to rush to the defense of Director Hoover in the face of this type of attack, but rather to register my own complaint. For in leveling the charge that FBI Agents spend too much time in polishing Mr. Hoover's image, you are attacking me and my integrity as an individual and as an official of the FBI. Such a ridiculous accusation implies that my twenty-three years of work in the FBI have been spent frivolously. I bitterly resent such an implication. I feel that my own record of service in the FBI speaks for itself and should not be stained by the unfair allegations recently leveled publicly by you.

According to newspaper accounts, your attack on Mr. Hoover is based on the contents of an anonymous letter purportedly from employees of the FBI. It is incredible that a man elected to the United States Senate would engage in irresponsible and vicious character assassination of a man of the stature of J. Edgar Hoover based on the contents of an anonymous letter. I am sure you would be outraged if the roles were reversed and unfounded anonymous accusations against your character were publicized by Mr. Hoover.

Your attack against Mr. Hoover is not surprising. In an editorial column in the March 2, 1971, issue of the Washington 'Daily News,' charges leveled by you in another matter were labeled as flagrant smears. There was nothing anonymous about this column. I feel that your unjustified allegation involving Mr. Hoover is likewise a flagrant smear.

As an American, you owe a debt of gratitude to Mr. Hoover, and you certainly owe all of the loyal and dedicated employees of the FBI an applogy for the manner in which you have attacked them by leveling your attack on Mr. Hoover.

#### CHARLES D. BRENNAN ASSISTANT DIRECTOR DOMESTIC INTELLIGENCE DIVISION

The exceptionally high caliber of Mr. Brennan's services during the period from April 1, 1970, through March 31, 1971, has certainly merited this Outstanding rating for him.

In his capacity as Assistant Director of the Domestic Intelligence Division, Mr. Breman is personally responsible for all matters relating to internal security, espionage, counterespionage, subversive controls and nationalistic intelligence. On a daily basis, while directing his division, Mr. Brennan has demonstrated enthusiasm, devotion, and superb good judgment. His every thought and act are directed toward the best interests of the Bureau and he is ever alert to insure that these interests are protected and advanced. Mr. Brennan's willingness to assume additional responsibilities of increasing importance, his readiness to set aside personal desires in order to meet the demands of the service, and his desire for excellence have won for him the respect of superiors and subordinates alike. Because of his outstanding qualities of leadership, he has instilled in those employees under him the desire to perform to the best of their ability.

Mr. Brennan is a most effective representative of the FBI, engendering a feeling of confidence in all with whom he comes in contact. He makes a most impressive personal appearance, has a warm, friendly personality and while aggressive when necessary, he is also tactful and diplomatic. Well-versed in Bureau procedures, he constantly strives to devise ways and means by which operations can be improved and economies effected.

Last inspection: 4/2 - 17/70.

Physical Condition and Maintenance - Excellent (Last Inspection - Excellent). No change in space, which is secure and well maintained. Minor housekeeping delinquencies noted were corrected or ordered corrected. One car assigned to Division fully utilized. No safety defects and no accidents since last inspection.

Specific Division Operations - Fair (Last Inspection - Excellent). True Bill of Indictment returned East Coast Conspiracy case during inspection. Investigation thoroughly reviewed revealed aggressive supervisory attention. Inspector instructed Division to continue top priority attention to case and that matter would be considered adequately handled only after successful prosecution of conspirators an accomplished. fact.

Potential for racial violence remains high. Racial matters continue to receive aggressive attention. Important increases in informants (+1699) (30%) since last inspection. Black Panther Party (EPP) continues to increase (+250 last 6 months). 408 of 1000 hard-core BPP members arrested on either Federal or local charges during 1970. BPP underground penetrated. Memorandum to Mr. Tolson Re: Inspection - Domestic Intelligence Division

Communist Party, USA continues with 11 members National Committee. SOLO operation continues to furnish highly valuable information. White House and Attorney General being promptly advised pertinent developments by Division. Accomplishments domestic intelligence substantial during inspection period. Careful investigation Venceremos Brigade subjects ordered with prosecution to be fully explored. 74 double agents currently operated against Soviets (67 last inspection). 227 under development as potential double agents (207 last inspection). 5 defectors-in-place all out of country at present time. Same as last inspection. 3 Soviet persona non grata cases since last inspection. One pending removal action. 59 double agents furnish valuable information 7 satellite countries - 56 last inspection. 908 Soviet and 414 satellite officials in United States of which 326 known or suspected intelligence agents. Nationalities Intelligence Section directing operation of 9 active and 15 potential double agents against Cuban Intelligence Service. 10 suspected Chinese agents in United States. Informants on Chinese intelligence matters decreased to 90 from 103 last inspection. Communist China recognized by Canada and opening Embassy in Ottawa. Canadian intelligence estimates at least 50% Chinese intelligence from Embassy will be directed against U. S. Strong possibility also exists China will be admitted United Nations next time matter presented for vote (9/71). Inspector instructed programs be initiated now to prepare for above eventualities.

Unfavorable trends detected in review of espionage investigations indicating lack of aggressiveness in affording field hard-hitting direction and instructions certain cases which have potential for highly important development defectors-in-place. Division instructed immediately reevaluate present program for purpose of accomplishing hard results now, and suggestions for necessary stimulation this vital program made.

Foreign liaison operations effectively supervised by unit following dissolution of Liaison Section 7/70. Offices at Beirut, Caracas, Copenhagen, La Paz, Managua, Tel Aviv opened since last inspection. Legat personnel increased from 60 to 88.

Research Section continues to prepare large volume valuable specialized summaries and studies. Section and Division exercising careful judgment in dissemination of material outside of Bureau in keeping with current instructions.

Total security matters pending in field 12/31/70 - 63,641, up substantially since last inspection. Further increases will result from/lifting of moratorium on investigation and reporting on Security Index subjects. Security and potential security informants increased. No field delinquency over 7% in last 6 months in any classification supervised by Domestic Intelligence Division. Subjects on Security Index increased 8.2% since last inspection - total now 12,064.

Memorandum to Mr. Tolson Re: Inspection - Domestic Intelligence Division

Administrative Operations - Very Good (Last Inspection - Fair). Front Office and section supervision generally effective. Division reorganization 12/16/70, involving primarily movement Racial Intelligence Section to Espionage Branch, has resulted in better balanced work load. Clerical production, odd-hour shifts (justified), records management, economy of operation, automatic data processing, dissemination all checked carefully and being afforded close attention. No unnecessary delays in handling mail or files noted. No errors affecting fringe benefits noted in time and attendance records.

Suggestions made to improve routing Racial Informant mail, redirect defectors in-place program, strengthen our efforts against Communist Chinese intelligence, and revise Racial Informant Status Report. Suggestion also made to strengthen New Left informant program and to include compilation statistical accomplishments, same as racial and criminal informants, for budgetary purposes.

No substantive errors detected. Stenographic production well above production last inspection.

Personnel Matters - Very Good (Last Inspection - Very Good). Approved complement 306 (116 Agents and 190 clerks) -- down 10 Agents and up 4 clerks since last inspection. Division requested 4 additional Agents (2 Racial Intelligence Section - 2 Special Coordination Unit). 2 of 4 justified - approved (handled separately). 118 Agents and 191 clerks (1 additional approved during inspection) adequate but not excessive. Division funds audited and in order. No Agents on probation or overweight, 3 on limited duty - productive - retention justified. Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director and Division. officials maintain valuable high-level contacts, all in a position to furnish information and services of interest to Bureau in domestic and foreign fields.

You did not fulfill your obligation in this regard recently in connection with an incoming teletype which did not reach me in the speedy and effective manner desired. DEMONSTRATIONS SPONSORED BY THE PEOPLES COALITION FOR PEACE AND JUSTICE (PCPJ), APRIL 26 - MAY 5, 1971, WASHINGTON, D. C.

Philadelphia teletype dated 4/28/71 (attached) set forth details of a plot by the Coalition to tie up Washington, D. C., and long-distance telephone lines on May 3, 4, and 5, 1971. The teletype was received in the Domestic Intelligence Division (DID) at 9:49 AM Wednesday, 4/28/71. The Director requested explanations as to why DID did not call this matter to his attention.

Memorandum Mr. Sizoo to Mr. Brennan dated 4/28/71 (attached) explains that Mr. Sizoo discussed this matter with Mr. Tayel of the Files and Communications Division, at 9:30 AM, 4/28/71. Tayel advised he was preparing a memorandum recommending telephone company officials be advised of the plot. Sizoo explained since Tayel was preparing a memorandum he did not think it necessary to send original to the Director. In his addendum Assistant Director Brennan explained he has examined handling of the matter and since it appeared Tayel prepared a memorandum and attached a copy of the teletype, "the Director was adequately informed." The Director noted, "I do not agree. The first I knew of it was long after teletype had been in the Bureau."

#### **OBSERVATIONS:**

REC-134

The Director agreed to routing of teletypes directly to interested Division only with understanding that each Assistant Director assume full responsibility for immediately calling to his attention pertinent items such as this teletype. Usually this is handled by attaching a short note to the teletype and routing both to the Director. It is a speedy and effective way to keep the Director advised.

Sizoo's assumption that Tavel's memorandum handled the matter is incorrect. Tavel advises under no circumstances did he state or imply that his memorandum would handle substantive phases of matter. Clearly, Sizoo should have instructed that teletype be immediately sent to the Director together with a short note in accordance with accepted practice. Had this been done the Director

Memo for Mr. Tolson Re: Demonstrations Sponsored by PCPJ

would have been aware of these developments at a fairly early hour in the morning. As it was the first he learned of the teletype was when he received Tayel's memorandum at 3:17 PM.

Mr. Breman's comment that the Director was "adequately informed" misses the point -- which is why did it take so long for the information to reach the Director.

#### RECOMMENDATIONS:

1. That Inspector Sizoo be censured for his poor judgment in assuming the Director would be promptly or fully advised of a DID matter by another Division. If approved, to be handled by the Administrative Division.

2. That Assistant Director Brennan be censured for his overall responsibility in this matter and particularly because of his poor judgment in stating the Director was adequately informed when, in fact, the question was one of timeliness. If approved, to be handled by the Administrative Division.

SUBJECT: CHARLES D. BRENNAN

AssistantDirector
Domestic Intelligence Division
EOD 4-19-48; GS-17, \$33,631

Age 49, Married, 3 Children - Veteran

The following is a brief summary of Mr. Brennan's record for the Director's use.

He entered on duty on 4-19-48, and is presently serving as Assistant Director of the Domestic Intelligence Division. He is in Grade GS-17, \$33,631 per annum, is 49 years of age, married, and has 3 children. His services were rated OUTSTANDING on his last performance rating dated 3-31-71. His overtime performance and weight are considered satisfactory, he is in his only office of preference, the Seat of Government, and he does not have a foreign language ability.

His file reflects the Director saw him on 6-15-70, at which time the Director discussed with him his duties as Assistant Director of the Domestic Intelligence Division.

Since being approved as Assistant Director of the Domestic Intelligence Division, administrative action has been taken against him on 3 occasions and by letter dated 6-25-71, he IS BEING CENSURED AND PLACED ON PROBATION inasmuch as on 6-23-71, he requested authorization for the New York Office to conduct a particular interview and the Director disapproved the request. Although the Director's instructions were certainly clear and not subject to misunderstanding, he misinterpreted them and ordered the interview contrary to the Director's desires. He has been COMMENDED once, two Agents of the Domestic Intelligence Division were COMMENDED through him and by letter dated 4-5-71, he received an INCENTIVE AWARD in the amount of \$500.00 in recognition of his 1971 Outstanding Annual Performance Rating.

By letter dated 3-4-71, he directed a lettered Senator George S. McGovern concerning his unwarranted and slander dustated of the Director and the FBI. By letter dated 3-18-71, he congratulated the Director and expressed kind words concerning the Director's testimony before the House Subcommittee on Appropriations. His letter of 3-18-71, was acknowledged 3-19-71.

It is noted that on a routing slip to the Director dated 3-5-71, Mr. Tolson noted, "I think Assistant Director Brennan is being listed for too many speeches and that they should be curtailed in the future."

SUBJECT: LEAK OF INFORMATION CONCERNING TRANSFER OF ASSISTANT DIRECTOR C. D. BRENNAN TO CLEVELAND AS SPECIAL AGENT 'IN CHARGE

> Today you inquired of me about the leak to the White House of information regarding Mr. Brennan's transfer You advised me that the transfer to the Cleveland Office. letter was dated 6/28/71. My best recollection is that I learned of this transfer the day prior to the recent National Academy graduation which was on 6/30/71. Further, it is my recollection that I learned of it through other Domestic Intelligence Division personnel after Mr. Brennan had advised the Section Chiefs of his transfer. At any rate, it was common knowledge within the Division when I learned of it. I did not and have not to date discussed this transfer with lanyone outside the Bureau! Specifically, I did not discuss it with anyone at the White House nor has anyone at the White House ever mentioned the matter to me. I was not aware that the White House knew of this transfer until our discussion today.

I do not know of anyone who discussed this transfer lwith anyone at the White House or anyone outside the Bureau.

You inquired if I am aware directly or indirectly of the reason Mr. Brennan's transfer was subsequently canceled. I have no direct knowledge of this reason and indirect knowledge only to the extent that it was fairly common speculation that Assistant Attorney General Robert Mardian may have intervened with the Attorney General to have the transfer canceled. I cannot recall whom I may have heard this from; as I say, it was fairly general speculation. I am not in possession of any direct or indirect information or even speculation which would assist you in resolving this matter.

I would like to add that I can fully understand the reason why this inquiry was made of me but that as a general policy, I do not gossip or informally discuss such internal Bureau matters as this with anyone at the White House as it is obviously inappropriate.

SUBJECT: LEAK IN INFORMATION CONCERNING

TRANSFER OF C. D. BRENNAN TO

CLEVELAND AS SAC

Pursuant to the Director's instructions today, I interviewed Mr. W. C. Sullivan and Mr. C. D. Brennan concerning the leak of information to the Department as to Mr. Brennan's transfer to Cleveland as Special Agent in Charge.

Specifically, I asked Sullivan and Brennan whether they had discussed this matter with anyone outside the Bureau and specifically whether they had discussed the matter with anyone in the Department of Justice.

Both emphatically denied that they had discussed the matter with anyone outside the Bureau.

Both specifically stated that they had not discussed it with anyone in the Department of Justice. Their memoranda so stating are attached.

Reference is made to your request to me as to who I may have discussed my proposed transfer to Cleveland with after receiving it on Monday afternoon. The letter of transfer was received and timestamped in the Domestic Intelligence Division at 5:07 p.m. and delivered to me by my secretary approximately ten minutes thereafter. I discussed the transfer with Assistant to the Director W. C. Sullivan who advised me that at the earliest opportunity I should officially inform the Section Chiefs of the Domestic Intelligence Division. I held a Section Chiefs' conference and so advised them at 10:00 a.m. on Tuesday, June 29, 1971. I

Pursuant to your question as to whether or not I discussed the transfer of Mr. Charles D. Brennan with anybody, the answer is that I discussed the transfer with nobody outside the Bureau and inside the Bureau only with a very limited few on a need-to-know official basis. In regard to this matter, I haven't discussed the matter with anybody at the White House, Department of State, Department of Justice, Department of Defense, etc.

Dear Mr. Brennan:

On June 23, 1971, you requested authorization for the New York Office to conduct a particular interview and I disapproved the request. Although my instructions were certainly clear and not subject to misunderstanding, you misinterpreted them and ordered the interview contrary to my desires. I find such a lapse on your part inexcusable.

In view of the above, you are being placed on probation. While in such status, favorable consideration will not be given to any Within-Grade Salary Increase for which you would otherwise become eligible. In the future, you will be expected to be more alort so that a dereliction such as this does not recur.

Very truly yours,

ADDENDUM, W. MARK FELT: When matters of vital importance are pending, the Direct or expects the responsible Bureau officials to be on the job. Sullivan and Brennan will know when cases have been brought to the point where it would be appropriate to apply for leave. At that time they should submit for the Director's consideration a short memo explaining why they feel the cases have been successfully brought beyond the critical point together with their leave request. Domestic Intelligence Division EOD 4-19-48; GS-17, \$33,631

Age 49, Married, 3 Children - Veteran ON PROBATION SINCE 6-25-71

DENIAL OF WITHIN-GRADE INCREASE

By letter dated 6-25-71, Mr. Brennan was CENSURED AND PLACED ON PROBATION inasmuch as on 6-23-71, he requested authorization for the New York Office to conduct a particular interview and the Director disapproved the request. Although the Director's instructions were certainly clear and not subject to misunderstanding, he misinterpreted them and ordered the interview contrary to the Director's desires. He was also ORDERED UNDER TRANSFER to the Cleveland Office as Special Agent in Charge in a letter dated 6-28-71; however, this action was subsequently canceled. He was advised that while in a probationary status, faverable consideration would not be given to any Within-Grade Salary Therease for which he would otherwise become eligible.

In this connection, the law and regulations provide that employees should be given at least 60 days advance notice of possible denial of a Within-Grade. Increase. In cases where such notice is not or cannot be given, canother determination as to the employee's eligibility for a Within-Grade Increase must be made no later than 60 days after completion of the required waiting period, and if the original denial is reaffirmed, another written notice of denial must be sent to the employee. He was eligible for a Within-Grade Increase on 6-27-71. Although the current freeze on wages precludes a salary increase in connection with favorable within-grade determination, date of such favorable determination is considered as the date of last equivalent increase for future within-grade purposes

### RECOMMENDATION:

REG-131

That the original denial of his Within-Grade Increase be reaffirmed at this time and that he be advised by letter the matter of affording him a Within-Grade Increase has again been considered but a favorable determination is not possible since he is still in a probationary status; that his performance will again be reviewed at such time as he is removed from probation and that he may request reconsideration of this determination within fifteen days. If approved. an appropriate letter is attached.

SUBJECT:

PERSONNEL CHANGES

Charles D.

The Director has approved Mr. Felt's memorandum of 9/7/71 recommending that Mr. Brennan be reassigned from his present position as Assistant Director of the Domestic Intelligence Division and designated Inspector in Charge of the Special Investigations Office at no change in grade or salary. The Director also approved that Inspector E. S. Willer be designated as Acting Assistant Director of the Domestic Intelligence Division. Appropriate letters to Mr. Brennan and Mr. Miller are attached.

It will be necessary to prepare a fanfold (Notification of Personnel Action) in Mr. Brennan's case and have it approved by the Deputy Attorney General in accordance with the current Delegation of Authority restricting the Director's final authority over positions of Assistant Director and above. This will be handled separately. It will not be necessary to secure approval of the Deputy Attorney General in Mr. Miller's case at this time since he is only being designated as Acting Assistant Director. At such time as he is designated Assistant Director approval of the Deputy Attorney General must be obtained.

SUBJECT: CHARLES D. BRENNAN

INSPECTOR IN CHARGE

SPECIAL INVESTIGATIONS OFFICE

Pursuant to the Director's instructions, I fully briefed Brennan on the responsibilities of his new position. I explained that this realignment was to permit Brennan to spend full time supervising the case and related "leak" cases. I explained that he will have separate office space within the Domestic Intelligence Division (DID) space but will be detached from DID and be directly responsible to the Assistant to the Director. I also explained to Brennan that the nine supervisors currently assigned to these cases would also be detached from DID and work directly under him.

I pointed out that this realignment is to permit intensification of supervision in the 'leak' cases, particularly the case which is to be continued as a major case until its successful conclusion.

I explained to Brennan that the Administrative Division had been instructed to work with him and Acting Assistant Director Miller to arrange necessary space. I instructed him to work closely with Miller to insure an immediate and smooth transition.

Dear Mr. Hoover:

This is to acknowledge receipt of your letter of September 8, 1971, reassigning me from the position of Assistant Director of the Domestic Intelligence Division to that of Inspector in Charge of the Special Investigations Office.

Please excuse the delay in responding to your letter. It was occasioned by the necessary action involved in moving into my new position. However, I am established in it now and I wanted to let you know I regard it as another challenge. As I have always indicated to you, I am available to serve the FBI in any capacity it is believed I may be useful. I also wanted to let you know that I intend to continue to work vigorously and aggressively to combat the activities of those who would undermine our national security, as well as those who would nullify the FBI's ability to discharge its great responsibilities.

Sincerely yours,

Charles D. Brennan

SUBJECT: EMERGENCY ANNUAL LEAVE REQUEST

My father, who is 78 and resides alone in Atlantic City, New Jersey, was taken to the hospital last week in an emergency situation. He has a bad case of emphysema, has developed bleeding ulcers, and is in a serious overall physical condition complicated by severe emotional depression which has persisted since the death of my mother last year.

My wife has been with my father this past week and called to advise me that the doctors expect him to be in the hospital about 10 days more. Thereafter they feel it will be essential for him to receive continued nursing care in a nursing or rest home.

To effect such arrangements, along with handling related personal matters occasioned by the fact that my father lives alone, it will be necessary for me personally to make the arrangements while my wife returns home to care for our teen-age children.

Accordingly, I am submitting the attached leave slip for emergency annual leave for the week of September 20, 1971. It is to be noted there are no other available relatives who could handle the situation.

In my absence, the Ellsberg and related Leek cases will be supervised by Supervisors Eugene R. Harrell and James R. Wagoner, both of whom are completely knowledgeable about all facets of these cases. Supervisor Harrell, in addition, will operate from my front office to handle the overall responsibilities of the Special Investigations Office. Barring unforeseen circumstances, Il expect to be back to work on September 27, 1971

SUBJECT: CHARLES D. BRÉNNAN Inspector in Charge

Special Investigations Office

My prodo for Odams

On June 25, 1971, Mr. Charles D. Brennan was charged with misinterpreting instructions and placed on probation.

Ninety days have now elapsed since this action, and he is eligible for removal from probation, if the Director so decides.

Mr. Brennan has an excellent record in the FBI. He has accepted his new assignment with interest, enthusiasm, and dedication. His attitude is exemplary, and in view of this I suggest he be considered for removal from probation.

It is also noted that Mr. Brennan was eligible for a within-grade increase on 6/27/71, but did not receive this because of being placed on probation. It is also suggested that he now be given this within-grade increase, since he is performing at a very acceptable level of competence.

RECOMMENDATIONS:

TIONS: 9 OCT 6 1971.

That Mr. Brennan be removed from probation.

Inspector in Charge

Special Investigations Office

In Mr. Sullivan's memorandum to Mr. Tolson of 9/30/71, the caption carried Mr. Brennan's title as "Inspector in Charge, Special Investigations Office." The Director noted, "He does not have rank of 'Inspector in Charge.' His rating is 'Inspector.'" Attached is Mr. Felt's memorandum to Mr. Tolson of 9/7/71, in which it was recommended and approved by the Director that Mr. Brennan be removed as Assistant Director of the Domestic Intelligence Division and designated Inspector in Charge of the Special Investigations Office. In effecting this approved recommendation, a letter was sent to Mr. Brennan under the Director's signature 9/8/71, advising Brennan he was reassigned to the position Inspector in Charge of the Special Investigations Office. The file copy of this letter is also attached. Further, to officially record the action, we executed SF-50, "Notification of Personnel Action," which was taken to the Department in accordance with regular procedures where changes involving officials in positions Assistant Director and up are involved, and initialled as approved by an official acting for the Deputy Attorney General. This document also recorded Brennan's new title as "Inspector in Charge," and a copy was sent to Brennan. copy of the SF-50 is also attached.

REC-1118 In view of the Director's comment-on-Mr. of 9/30/71, it will be necessary to execute a new SF-50, specifying Brennan's title as "Inspector." This action will also require changing organizational charts and changing Brennan's credentials.

#### RECOMMENDATION:

Attached is a new SF-50, specifying Brennan's title to be "Inspector" effective this date. Upon approval, a copy will be sent to Mr. Brennan, which will take the form of officially notifying him of the change.

WILLIAM C. SULLIVAN INFORMATION CONCERNING

Attached is a memorandum to me from C. D. Brennan concerning his part in the case of the purloined special files. This tends to corroborate Sullivan's story.

Brennan insists that he was not aware of the contents of the briefcase which he delivered to Mardian, and while this seems hard to believe we have no way to disprove it at this time.

I suggest that we take no action with regard to Brennan now and that this memorandum be placed in his personnel file.

Pursuant to your request, I am setting forth herein what I know of the existence of special file material which, as you relayed to me, W. C. Sullivan said he furnished to me for delivery to Assistant Attorney General (AAG) Mardian about three months ago.

I was aware that there was some sensitive coverage. I was not aware of the nature of the coverage, the scope of it, or the results of it because all of the material relating to it was handled and maintained by Mr. Sullivan in his office.

The only occasion on which I gave anything to AAG Mardian for Mr. Sullivan occurred approximately the end of August, 1971. I cannot recall the exact date but one day Mr. Sullivan personally came to my office with, as I recall, a briefcase about the size of a Bureau briefcase and instructed me to take it to Mr. Mardian. I was not aware o' the contents and inasmuch as Mr. Sullivan was my superior, I cid as he instructed. I took the briefcase to Mr. Mardian and told him that Mr. Sullivan instructed me to deliver it to him. Mr. Mardian accepted it without commenting about the contents of the briefcase and it appeared as if he had expected it. To this day, I am not aware of the nature of the contents.

SUBJECT:

INSPECTOR CHARLES D. BRENNAN

SPECIAL INVESTIGATIONS OFFICE (SIO) DOMESTIC INTELLIGENCE DIVISION (DID)

On 11/24/71 two of the Agents assigned to SIO came to my office and advised that Inspector Brennan had made comments which indicated to the Agents some question as to whether Brennan's best interests lay with the Bureau. The comments were in regard to the SALT LEK investigation.

The investigation involves the unauthorized disclosure of classified information which appeared in the 7/23/71 article by William Beecher in "The New York Times." Our investigation has encompassed interviews of in excess of 200 persons at the Department of Defense (DOD), State Department and various offices on Capitol Hill. Our investigation is designed to uncover the identity of the individual who leaked the classified SALT information to Beecher.

Agents E. R. Harrell and L. E. Belanger advised and have furnished memoranda (attached) indicating on 11/11/71 Inspector C. D. Brennan convened the weekly supervisors' conference for SIO. During the discussion at the conference of the major cases being investigated and supervised, Mr. Brennan made the comment that he could solve the SALT LEK case in a single day. He stated that he had a "friend on Capitol Hill" who knows the identity of the individual who leaked the information in this matter and could obtain that information from him with no trouble. Mr. Brennan said it was not his personal desire to impose on a "friendship" to solve a Bureau case, such as this, and he would resort to such action only if it was a matter of "life or death." He did not disclose the identity of his source. 67-42

ENCLOSURE Both Agents stated they felt it was inconceivable touthem that Brennan's comment could have been factual and feltDie madelit as a "frivolous boast."

However, on 11/23/71 SA Belanger participated with Brennan, on Brennan's instructions, in a working level conference with two members of the Internal Security Division of the Department.

Memorandum to Mr. Rosen Re: INSPECTOR CHARLES D. BRENNAN

discussion involved both the SALT LEK and \_\_\_\_\_\_\_\_\_\_investigations.

During this time SA Belanger was shocked to hear Mr. Brennan make the same statement to the men in the Department as he had made on 11/11/71 regarding his ability to solve the SALT LEK investigation in a single day.

SA Belanger discussed this matter with SA Harrell and both concluded he must not have been "kidding" at the 11/11/71 conference, otherwise he would not have repeated this statement outside the Bureau. Both felt the matter represented a serious dereliction on Brennan's part, if true.

#### **OBSERVATIONS:**

If Brennan's statement is true, it is agreed it does represent a serious dereliction. If it is not true, it raises a serious question as to Brennan's judgement and he should be confronted with these facts.

#### ACTION:

If you approve, I will confront Mr. Brennan with these facts and obtain his explanations following which I will submit appropriate recommendations.

He stated that he had a "friend on Capitol Hill" who knows the identity of the individual who leaked the information in this matter and could obtain that information from him with no trouble. Mr. Brennan said it was not his personal desire to impose on a "friendship" to solve a Bureau case, such as this, and he would resort to such action only if it was a matter of "life or death." He did not disclose the identity of his source.

In view of my knowledge of the extensive investigation that had been conducted in the past and my awareness of Mr. Brennan's involvement in these matters, it was inconceivable to me that his comment could have been a factual one or anything but a frivolous boast.

On 11/23/71 I was advised briefly by Supervisor L. E. Belanger of the details of a conference he had attended with Mr. Brennan with representatives of the Department of Justice in the office of Mr. John Martin of the Internal Security Division. Also in attendance was Mr. Joel Lisker of the same division. During the course of this conference Mr. Brennan advised the Department of Justice officials of his ability to solve the Salt Lek case as noted above, thereby, removing any doubts in my mind as to the frivolous nature of his comment or the outstanding necessity that he carry through with

SALT LEK

To place on record comments furnished orally to you this date. For information.

Captioned investigation involves the unauthorized disclosure of classified information which appeared in the 7/23/71 article by William Beecher in "The New York Times." Our investigation has encompassed interviews of in excess of 200 persons at the Department of Defense (DOD), State Department and various offices on Capitol Hill. Our investigation is designed to uncover the identity of the individual who leaked the classified SALT information to Beecher.

At a weekly conference called by Inspector C. D. Brennan on 11/11/71 for the Special Investigations Office there was a far-ranging discussion among those present concerning the specific leak cases assigned to the SIO. All of us were solicited for new ideas as to new avenues of approach to the problem and during these discussions Inspector Brennan made the remark, much to my surprise, that he was acquainted with an individual on Capitol Hill who would if pressed on the point disclose to him the source of Beecher's article. Inspector Brennan remarked further that he did not desire at this time to impose on his personal friendship with this individual in order to solve a Bureau case and felt that the Bureau through extensive investigation would probably come to the result. He added that if it became a matter of "life or death" he would give us the name of his friend so that arrangements could be made for interview. personally not well acquainted with all of the details of the SALT Lek case but Inspector Brennan's remarks at this time made me believe that he was not serious in the remarks. I was aware that the Washington Field Office was expending a great many man hours in interviewing individuals in the DOD and other Government establishments to determine Beecher's source and it was inconceivable to me that Inspector Brennan did not give us his friend's name. I thought > it over at length and concluded that he could not be serious.

On the late afternoon of 11/23/71 Inspector Brennan came to my desk and told me to accompany him to a meeting in Mr. John Martin's office of the Internal Security Division of the Department of Justice.

Memorandum to Mr. Miller Re: SALT LEK SIO

He briefly told me that we were to discuss a list of questions he had received from Mr. Martin and these questions pertained to questions that were to be asked by DOD investigators of personnel at Rand Corporation, Washington, D. C. It is to be noted that these questions pertained to the investigation of Daniel Ellsberg. Upon arrival in Mr. Martin's office, we were joined by Mr. Joel Lisker of the Internal Security Division. We discussed the projected DOD questions, mentioned before, and other questions to be posed to Mr. Henry Rowen of Rand Corporation. The discussion then became general regarding leak matters. At one point in the conversation, Inspector Brennan announced to those in attendance that he knew of an individual on Capitol Hill who could give him the name of the person there who had leaked SALT information to Beecher. recollection is that he mentioned his friend's name but admittedly I was rather shocked that Inspector Brennan would repeat this information to those outside the Bureau. He repeated similar remarks to those he had made in the conference of SIO personnel on 11/11/71. I could not detect any reaction to these remarks on the part of Messrs. Martin or Lisker.

Upon the conclusion of the conference after 5:30 p.m., I stopped Special Agent Eugene Harrell in the corridor and briefly told him of the remarks made by Inspector Brennan. We arranged that we would discuss the matter further the following morning. After consultation with Harrell, we contacted you and furnished the above information.

Memorandum from Miller to Mr. Rosen dated 11/26/71 advised that on 11/24/71 two Agents assigned to the Special Investigations Office (SIO) advised Miller that Inspector Brennan had made comments which raised a question with the Agents as to whether Brennan's best interests lay with the Bureau. The comments were in regard to the Salt Lek investigation. It was recommended that Brennan be confronted with these facts and his explanations obtained. The Director noted: "Yes & promptly. H."

Inspector Brennan has been interviewed regarding this situation and has submitted a memorandum of explanation (attached). He stated the interview apparently related to statements which he had made to Supervisors in SIO, which he made in an effort to stimulate them to more intensive and aggressive investigation of the case so as to resolve it. He said he has no friend on Capitok Hill who furnished such information. He explained that approximately one month ago he met Assistant Attorney General Mardian on the street and Mardian, in a somewhat disparaging way, had asked him when the FBI investigations would resolve the Ellsberg and Salt Lek cases and indicated he felt the FBT could be doing a better job. Brennan stated Mardian indicated it almost appeared that with the exception of the FBI, anyone in town could resolve these cases with an application of effort. Brennan said he told Mardian that we were doing all we could, to which Mardian remarked that if and when we found ourselves unable to resolve these matters he would probably have to help us out. Brennan told Mardian that he was confident we could solve our own cases and did not need help from anyone.

Brennan stated it appeared to him that Mardian was using a psychological gimmick in order to put more pressure on the case. He also said that he did not feel that Mardian was speaking factually and that he was simply "needling" Brennan. Brennan stated he decided it was not a bad idea to make similar remarks to his own Supervisors because it appeared to him at that time that they were very negative in their feelings and that the general attitude was that leak cases could never really be satisfactorily resolved. He said that he felt

if he indicated to his Supervisors that the identities of those responsible could be ascertained, this would instill in them a more competitive spirit.

He also stated that since Mardian had widespread political contacts, he did not dismiss the possibility that he very well could be knowledgeable as to the source of the leak in the Salt case. Accordingly he said he made statements similar to those he made to his own Supervisors to members of Mardian's staff with the feeling that if it were known among Mardian's men that Brennan was knowledgeable as to the source of the Salt Lek, this might stimulate Mardian to disclose the person responsible for the leak if Mardian had this knowledge. Brennan stated that this has not taken place.

It is not felt that Inspector Brennan has any information regarding the solution of this case as he has indicated on two loccasions as previously reported. It is felt, however, that Inspector Brennan contrived a rather childish approach to what he considers to be an effort to stimulate the imaginations of Agent personnel under his supervision. The fact that he used this same approach in conversations with individuals in the Department is considered poor judgment on his part. For both these reasons, it is felt he should be censured.

Further, since Mardian apparently has given Inspector Brennan some indication that Mardian knows the identity of or may be able to obtain information regarding the individual who leaked the Salt information to the press, it is felt that Miller should contact Mardian to discuss this matter with him. At this same time it is felt we should obtain from Mardian any comments which he desires to make regarding the FBI's investigations of both the Salt Lek and Ellsberg investigation.

#### RECOMMENDATION:

(1) That Inspector Brennan be censured for his poor judgment in furnishing incorrect information to Supervisory personnel in his office and also to Department personnel in Mardian's office.

Let Pref grand 11-30-71. JDD: Grand (2) That Miller contact Mardian for the purpose of clarifying the record as indicated above.

Reference is made to your memorandum to me on this date in the above-captioned matter asking if it is true that I have a friend on Capitol Hill who could furnish information which would solve this case and, if not, why I reportedly made statements to this effect.

Dear Mr. Brennan:

Recently, before a group of Special Agent supervisors and subsequently in the presence of Departmental personnel, you made irresponsible statements concerning a most sensitive matter being investigated by this Bureau. Your admitted contrivances in this instance are reprehensible and raise a serious question as to your judgment. Further derelictions of this nature will not be tolerated.

Hereafter, you will be expected to conduct yourself in such a manner that criticism of this kind will not again be necessary.

NO LOCAL

Memorandum 11/29/71 Miller to Mr. Rosen advised of results of interview with Inspector Brennan who denied that he had an acquaintance on Capitol Hill who at his request could solve Salt Lek investigation. Brennan stated he made this comment to supervisors in SIO for the purpose of instilling in Agent supervisors a more competitive spirit which he felt may lead to solution of this investigation. He stated that he got this idea as a result of a conversation with Assistant Attorney General Mardian during which time Mardian told Brennan that when the FBI found it is unable to. investigations that he probably resolve the Salt Lek and would have to help us out. Brennan stated it appeared to him that Mardian was using a psychological gimmick in order to put more pressure on our investigations.

As result of interview with Inspector Brennan it was recommended that he be censured for his poor judgment and that Miller contact Mardian for the purpose of clarifying the record, since Mardian had allegedly indicated some dissatisfaction with our handling of two important cases. As regards the interview with Mardian, the Director noted "Yes & promptly & vigorously."

I met with Mardian this morning and told him that it had come to our attention through remarks made by him to Inspector Brennan that he was <u>dissatisfi</u>ed with investigations being conducted in the cases. I also told him that further such Salt Lek and information indicated that Mardian felt that if the FBI could not resolve these impestigations that Mardian would have to help us out.

SCONTINUED MOVER **10** DEC XEROX

Memorandum to Mr. Rosen Re: INSPECTOR CHARLES D. BRENNAN, SIO, DID

At this point, Mardian stated that he recalled the incident about a month ago when he met Inspector Brennan on the way back to the office from luncheon. He said that he and Brennan naturally became involved in a conversation regarding these two important cases and that he did "needle" Brennan about the fact that neither of these situations had been solved. He said that this was a harmless discussion and that if he was critical this was only because he has "been taking a lot of heat" on these cases himself. He stated that he knows that these are extremely complicated investigative situations and that they are being given priority attention by the Bureau.

Mardian was asked whether he knew of any individual in his association who is in a position to solve the Salt Lek investigation (as inferred by Inspector Brennan) and Mardian said absolutely not.

Mardian was asked if he had any specific points of criticism regarding our investigative efforts in these two cases to which he replied after some thought that our response to certain situations in these investigations has not been as vigorous as he recalls during our handling of the EASTCON case. He said specifically that he has noted this difference during the last month. He could not be more specific than this stating that it was his impression that our liaison on the working level did not seem to be as close as it had been during EASTCON.

Mardian was advised that if he had any criticism regarding our investigative efforts in these cases or any other case that it would be appreciated if the criticisms could be made to Miller in order that these matters could be analyzed and corrective action taken if such criticism was considered valid. He was advised that "needling" did not appear to add anything either to our mutual liaison or investigative efforts.

Since Mardian had no specifics regarding his implied criticism of the Bureau and since this whole episode seems to be a rather unbusinesslike reaction to a tough investigative situation both on the part of Mardian and Inspector Brennan, it is not felt that further action is necessary at this time since the record has been clarified. I will discuss these implied problems with all members of the Special Investigations Office to insure that there is no misunderstanding as to the Bureau's intentions to resolve the Ellsberg and Salt Lek investigations as soon as absolutely possible and to insure also that every effort is made to accomplish this.

Memorandum from Miller to Mr. Rosen dated 11/30/71 set forth the results of an interview with Assistant Attorney General Mardian wherein Mardian had stated that our response to certain situations in the and Salt Lek investigations had not been as vigorous as he recalled during our handling of the EASTCON case.

It was recommended that these implied problems raised by Mardian be discussed with all members of the Special Investigations Office to insure that there is no misunderstanding as to the Bureau's intentions to resolve the Ellsberg and Salt Lek investigations as soon as absolutely possible and to insure that every effort is being made to accomplish this.

On the afternoon of 12/2/71 I held a conference with Inspector Brennan and all Agent personnel assigned to the Special Investigations Office and advised them of Mardian's comments. All personnel stated that Mardian's observations are absolutely incorrect and assured me that there has been no letup in the intensity of the supervision and direction of these investigations.

It was pointed out that there has been a recent moratorium in certain aspects of the investigation caused by court action in Boston over which we have had no control. Full details of this moratorium have been set out in appropriate memoranda in the case file.

During my conference with Special Investigations Office personnel, I had the definite impression that all were quite interested and enthusiastic about their responsibilities in these investigations. Regardless of this, I discussed at considerable length the absolute necessity for us to leave no stones unturned in resolving these matters from an investigative standpoint at the very earliest time.

Dear Mr. Gray:

I have just returned from a week's leave and wanted to acknowledge your note of May 11, 1972, advising me I have been removed from a probationary status. It was most gratifying and is deeply appreciated.

I would like to take the opportunity to extend to you my very best wishes for every success in your new position. It is a difficult task, but the overwhelming majority of us in the Bureau are determined to assist and support you not only to preserve the name of the Bureau but also to make it function even more effectively for the good of the country. In short, it is a challenge we all welcome and I feel we can now look to the future with greater optimism and anticipation.

Sincerely yours,

Mr. Charles D. Brennan Federal Bureau of investigation Washington, D. C.

Dear Mr. Brennan:

MAILED 5.

OCT 5 1972

FBI

Your headquarters are changed for official reasons from Washington, D. C.

to Alexandria, Virginia, as Special Agent in Charge, effective upon your arrival there on or after this date. Travel and transportation expenses and applicable allowances and benefits for you and your dependents incidental to this transfer as provided by the Administrative Expenses Act of 1946, as amended; Office of Management and Budget Circular Number A-56, dated August 17, 1971, and implementing regulations prescribed by this Bureau, shall be paid to you or on your behalf. However, before these expenses can be paid by the Government you must agree in writing (Bureau Form 3-34b) to remain in the service of the Government for one year following the first day you report for duty at the new station. If you are being transferred to a duty station outside the continental United States only the written agreement form, FD-382, need be executed. Expedite transfer and advise within 48 hours departure and arrival dates.

yours,

L. Patrick Gray, III

While such dissemination is not customary, it was felt it would be provincial and not in keeping with our responsibilities to another law enforcement agency to do otherwise in this case. Accordingly, no administrative action appears warranted and none is recommended.

Federal Government or to appropriate state and local Government agencies. Paragraph three of the above mentioned page two, referring to dissemination other than to the Executive Branch of the Government, includes the instruction, "Such dissemination should be specifically cleared with Bureau Headquarters, however. Where warranted, pending criminal investigations should be brought to the attention of the Attorney General."

Prior to disseminating the above report to the ACPD, Alexandria made no contact whatsoever with the Bureau as to this dissemination. There also was no explanation in the cover pages of this report as to why this was done. Alexandria was, therefore, requested to explain this action and include recommendations for administrative action. By communication dated 11/30/72, the SAC, Alexandria advised that the report was disseminated to the ACPD "because such dissemination was deemed consistent with FBI's investigative responsibilities; because it was of vital interest to ACPD; and because good judgement dictated it be done. One of the murder victims in this case was Patrolman Israel Gonzalez of the ACPD. Investigation from inception and throughout was conducted jointly by the FBI and ACPD. Information obtained throughout was exchanged freely and fully on a daily basis." The SAC further advised that "When SA Gallagher advised SAC that Detective Ernest Light of ACPD had orally expressed interest in receiving copy of FBI's investigative report, SAC instructed SA Gallagher to disseminate copy." The SAC, Alexandria felt no administrative action appeared warranted in this instance and none was recommended by him.

OBSERVATIONS OF GENERAL INVESTIGATIVE DIVISION: We should not permit the action by the SAC, Alexandria to go unchallenged, for to do so, would give tacit approval to field offices to disseminate FBI reports to their local departments. The potential scope of such dissemination is beyond estimation, since in nearly all of our criminal investigations, local agencies have concurrent interests. If FBI reports were indiscriminately furnished to police departments, they could very possibly become parts of police records which are made available to members of the press, and there is no end to speculation as to what use could be made of information from such reports. It is also pointed out that FBI reports, if allowed to be given to police agencies, would be available to local prosecutors, many of whom are politically oriented and would be very happy to quote FBI information for whatever purpose best suited them. We should continue to adhere to the firm policy of requiring field offices to advise

Schutz to Gebhardt memo Re: CHARLES ANDREW TULLER;

FBIHQ of all instances wherein dissemination of FBI information to local authorities is considered warranted. Before disseminating a raw FBI report to a local police agency, the matter should properly be taken up with the Attorney General by FBIHQ.

Expland to this to

The General Investigative Division has no quarrel with SAC, Alexandria as to the logic of wanting to cooperate to the fullest extent possible with the ACPD in the joint investigation of this heinous crime which resulted in the death of an ACPD officer. Had Alexandria contacted the Bureau as required, Alexandria would have been appropriately instructed as to how and as to what information should have been turned over to the ACPD for their assistance. There are many precedents for such action.

ACTION: This Division feels that the SAC, Alexandria exercised extremely poor judgement in routinely sending a copy of our raw report to a local police department where, it may be assumed, security of such material is not as rigid as the FBI would exercise. It is, therefore, recommended that the SAC, Alexandria be censured for his personal actions in the above regard.

Mr. Charles D. Brennan Federal Bureau of Investigation Alexandria, Virginia

Dear Mr. Brennan:

The circumstances surrounding your recent dissemination of a raw investigative report to a local police department have been carefully reviewed, and it has been determined that you exercised extremely poor judgment in taking this action without first bringing this matter to the attention of FBI Headquarters. Your desire to cooperate to the fullest extent possible with the local law enforcement agency involved in the joint investigation of this criminal matter is understandable; however, it was incumbent upon you to seek appropriate instructions from FBI Headquarters concerning what information could be released, and you were at fault for not doing so.

Bureau instructions are explicit regarding such matters and you are hereby censured for failing to adhere to prescribed 2000 cedures in this instance. I will expect you to be more alert to your responsibilities in discharging your future administrative functions so that there will be no repetition of a dereliction of this nature.

Dear Mr. Gray:

Please accept my thanks on behalf of Financial General Bankshares, Inc., and eight bank presidents, for the fine and informative talks made by three of your men pertaining to the Investigative Jurisdiction of the Federal Bureau of Investigation as it pertains to banks and other savings institutions. The men who spoke to us were Special Agent Bill Crowder from the Alexandria Field Office; Chick Brennan the SAC; and, an old buddy of mine for many, many years, Bill Cleveland, one of your Assistant Directors. Their talks and answers to questions were most informative, enlightening, and interesting.

I would also like to take this opportunity to congratulate you upon your present appointment, and wish you success in the future.

Memorandum Callahan to Felt Re: Annual Performance Ratings Special Agents in Charge

and Robert G. Kunkel of St. Louis all of whom were censured and placed on probation during the rating period. Satisfactory ratings are proposed for SACs Robert W. Evans of Butte, Julius Lee Mattson of Portland and James E. Milnes of Seattle all of whom were censured during the rating year and whose offices were down in two of the three categories of statistical accomplishments. A rating of Satisfactory is also proposed for SAC Charles D. Brennan of Alexandr who was also censured during the rating year and whose office is down in all three categories of statistical accomplishments. SAC Ralph J. Miles of Birmingham has been on limited duty for the greater portion of the rating period and in accordance with Manual of Rules and Regulations is entitled to no more than a rating of Satisfactory.

If the foregoing is approved, SACs will be given the original of the cover sheet of their performance rating with no Rating Guide or narrative comments being prepared.

#### **RECOMMENDATIONS:**

(1) That ratings of Outstanding be approved for SACs J. Gordon AShanklin, Robert K. Moore and William A. Sullivan without monetary recognition No narrative comments will be prepared.

(2) That SACs John W. Burns, Paul C. Young, Richard D. Rogge, Robert G. Kunkel, Robert W. Evans, Julius Lee Mattson, James E. Milnes, Ralph J. Miles and Charles D. Brennan be rated Satisfactory.

(3) That all other SACs not specifically mentioned above be rated Excellent.

OVER...

ADDENDUM OF W. M. FELT 3-28-73 WMF:cat

You may wish to consider some of the SACs and some of the Assistant Directors for Outstanding ratings—with or without monetary recognition. Last year we gave Outstanding ratings to 19 SACs, and at FBI Headquarters we gave Outstanding ratings to 16 Assistant Directors and officials in the Executive Offices. All but four of these received monetary recognition.

My feeling is that some of the really hard-working and deserving officials might be a little hurt if they did not get the rating. I am sure that they would all feel that the rating was more important than the money.

SUBJECT: SA CHARLES D. BRENNAN SAC - Alexandria Office EOD 4-19-48; GS-17, \$36,000

Veteran

FROM : T. J. Feene

Age 50; Married - 3 Children

The following is a summary of SA Brennan's record for Mr. Gray's use. He will celebrate his Twenty-fifth Anniversary with the Bureau on 4-19-73.

He entered on duty 4-19-48, as a Special Agent and has served in the Field and at FBI Headquarters, where he once served as an Assistant Director of the Domestic Intelligence Division. On 10-16-72 he reported to the Alexandria Office as Special Agent in Charge. He is in Grade GS-17, \$36,000 per annum.

The most recent administrative action taken against him was a letter of CENSURE dated 12-13-72, for his extremely poor judgement in dissemination of a raw investigative report to a local police department without first bringing this matter to the attention of FBI Headquarters. By letter dated 4-16-73, the personnel of his division were COMMENDED, through him, for their excellent performance.

He lists FBI Headquarters as his only office of preference.

On 3-31-73 he was rated EXCELLENT.

His cousin, is employed in the Philadelphia Office as a File Clerk.

Mr. Charles D. Brennan. Federal Bureau of Investigation Alexandria, Virginia

Dear Chick:

Please accept my sincere congratulations on this, the occasion of your Twenty-fifth Anniversary in the service of the Federal Bureau of Investigation. In commemoration of this special event, I wish to present your Twenty-five-Year Service Award Key.

You have consistently carried out your duties with unusual diligence and competence and have maintained the confidence of those with whom you come in contact by your proven ability in handling the many administrative responsibilities of your position. The pride and intelligence you have shown in your work and your obvious interest in the improvement of the operations of the Bureau have been inspiring examples for your associates and, as a result, you have instilled in others the enthusiasm and loyalty you have continually shown for the work of the Bureau.

I trust that this Key, which symbolizes long and distinguished service, will help recall many pleasant memories of your FBI career.

With best wishes and kindest regards,

Sincerely, Pat Gray Mr. Felt Mr. Baker L. Patrick Gray, III Mr. Callahan Acting Director Enclosure RHC: vam <sub>e</sub>(3) (Salutation per Instructions) 67-428100
